CHAPTER – 06

ACTIONS YEAR 2020 FOR BUILDING GLOBAL GOLDEN AGE!

INTRODUCTION!

'Christian European (CE)' of British, French, Spanish, Portuguese and Dutch the rare human evolution amongst mankind subjugated not female by 'Family Sex and Servitude (FS&S)' or honor killed not female for sex freedom or publicly lashed not males and females for violating biblical codes. Them by Christian love first excelled in science, technology and industrialized. 'Christian European (CE)' female and Arab male missionary offspring the Turkish

'Muslim European (ME)' honor killed women; ruled Euro-Asia for 700 years and obstructed industrialization of Europe. CE inhabited on less than 1% of global area; in Crusade Wars killed ME Turks ruled Europe up to Istanbul. CE sailed in sailing ships, rode on horseback on mountains with Tamils coolies; trekked on rattle snake infested deserts and cobra infested India colonized 77% of global land area. Exterminated Red-Indians from two continents; captured Africans tribal as slaves and trained them to work as farm workers. European built roads, railways, shipping lines, airways and postal communication with wireless services. Drilled for oil; built cars, computers and electronics communication. Published newspapers, scientific journals and built international trade. British educated Indians in par with European by 'English Hybridized Vernacular Languages (EHVL)' medium school education and English medium university. Soviet Russia united Eastern Europe 'Christian European Nations (CEN)' with Asian 6 'Muslim European Nations (MEN)' and built Communist USSR. USSR spread Communism to the world. USSR landed man first on Moon. Communist USSR reformed Central Asian 'Muslim European (ME)' to give up Burke and polygamy but could not depopulate any ME but CE depopulated in communist dictatorships and in hire and fire capitalist funded electioneering democracy of CEN!

SWEDISH FEMINIST PROTESTANT DEPOPULATED AND BUILT SWEDISH GOLDEN AGE!

Swedish Catholic women delivered up to 13 children in life and looked to Rome for economic and spiritual leadership. Swedish King proclaimed Protestantism as national religion and himself as head of Swedish Protestant Church. King nationalized all Swedish Catholic Churches and its assets and commanded that all subjects to become Protestants. Protestant Swedes granted equality, fraternity and freedom to date and enjoy sex without babies. Kissing, hugging and pair dancing encouraged as good cultural practices to build harmonious homogenized close-knit nations of one for all and all for one. Swedish Feminist women acquired equality by performing industrial jobs like men. Swedish 'Labor Market Training (LMT)' paid wages for unemployed to fit in with market jobs created assurance of life. From early childhood Swedish primary school boys and girls trained to hug all others of opposite sex in classroom and broke childhood fear of opposite sexes. At budding of life, class rooms broke barriers of classes and religions amongst boys and girls of a classroom. Swedish pupils eat national lunch in a classroom and lived as one family. First blossom of life for girl occurred during 10 to 17 years of age. Schools and colleges granted academic freedom for falling in love. Girls taught techniques to avoid pregnancy; enjoyed non-populating Krishna sex with immature fellow boys. Second blossoms of life occurred between 16 to 25 years of age. Swedes pursued college education or trained as skilful work force and co-habit without bearing children. In third blossoms of life workers lived together as pair with fellow workers. Paired couples enjoyed love-sex without pregnancies up to 34 years. Sex clubs, sex shows, sex films, pornography, use of sex tools, sex movies, live sex shows, sex with or without sex partners popularized. Swedes used condoms, pills and safer abortions. First delivery age of women increased to 35-year of age and delayed up to 50 years of age. Women's life expectancy increased to 88 years. Pairs living average age reduced to 15 years and lifetime childbirth reduced to 1.7. Monaco royal

family of Europe 700-year old. After death of King unmarried Prince at 40 years of age ascended throne since had a son by cohabitation. Christen Kings did not populate nation by own offspring like Afro-Asian kings.

SEX, FREEDOM, WINE AND TODDY BUILD GLOBAL GOLDEN AGE FOR AFRO, ASIAN, LATINO AND MUSLIMS!

French vineyards, wine factories, arts, bars, nightclubs, sex clubs, French cuisine and tourism enlarged jobs. French sex, alcohol and food culture created 50% of jobs. Kemal Ataturk, father of modern Turkey abolished polygamy, longer beards and burke. Introduced Latin scripts to write Turkish Language so as to create CE identity to Turks. Malaysia granted its Muslim women rights to date non-Muslim. After Khomeini religious revolution, Iranian women seek more higher education than men and seek military jobs which increased marriage age and reduced child birth rate below European Turks.

According to Jomo Kenyatta, first president of Kenya, African farmer tribes in past ages had wisdom that 'Rain Forest (RF)' shall not be reduced and 'Farmer Cultivated Lands (FCL)' shall not be enlarged for employing exploded populations. Virgin girls granted privileges of exposing charm of virgin breasts. Kenyan feminist cultural rituals forbid boy stripping girls to enjoy sex. Adult boys and girls periodically assembled in village night club like common locations. During dance and music session, girl selected either one of boys she loved or one of boys who loved her as companion for night. After dance session each girl paired with a boy to privacy of hut. Girl stripped naked that single male partner to enjoy brotherhood and non-populating sex companionship. It built harmonious tribe with 'Economy and Ecology Sustainable Population Level (E&ESPL)'. Amazon hunting tribes rationed number of living children per mother to maintain tribal population level in par with hunted animal population in specific ratio. Primitive society killed child after delivery to E&ESPL.

Japan an earthquake prone nation, lacked resources such as oil, coal and large land area etc. Japanese inhabited three thousand islands situated 250 km off coast of mainland China. Total inhabitable land area smaller than Montana State of USA. Emerging maritime power of USA threatened Japan. Samurai led Maiji revolution abolished own special privileges of carrying sword and tax collecting authority became common citizens. Maiji acts unified all Japanese as single strata under Emperor. In name of Japanese Emperor; Samurais specified duties and responsibilities. Japanese loyal employees considered working as patriotic act for producing wealth. 'Leader Socialist Patriot (LSP)' employer duty is value added international trade. Short little Japanese with single digit set up time; set, up to 32 machines during a shift. They used mechanization, automation and robotics. Japanese imported sex workers from South Korea since every business deal required sex fun which increased growth of intellect, economy, science, arts, engineering and technology. Japanese economy became third largest with trillion \$ budget and built larger 'Per Capita Wealth (PCW)'. Japanese worker if terminated by LSP employer from employment considered it as greatest insult and for that committed suicide.

Japanese marriage is not falling in love but to be able to perform husband family work to build family economic social status. Japanese family life of dedication to family vocation by daughters-in-law or sons-in-law incorporated in family life. Japanese reduced life time childbirth by year 2000 to 1.28 per woman to retain full employment E&ESPL.

Afro-Asian Hindus, Christians and Muslim forbid dating and co-habiting which quenched sex body heat tension and reduced childbirth. Exploded pupils and students attended expensive private education to write competitive examination for seeking job. Queued for capitalists hire and fire jobs. Self-job creation most difficult in industrial society. Death 8, birth 20 and unemployed 12 per 1000 population per year need new jobs. So, exploded population denuded warm RF and created FCL to create farming vocation by reducing RF which created 'Global Warming (GW)'. Gandhiji in South Africa invited Indian multi lingual Hindus, Muslim and other families engaged in fighting for human rights to live in Tolstoy Farm. His family members built intimate contact with Gujarat State, 'United Tamils State (UTS)' (Madras State) and Andhra Pradesh State origins living in Tolstoy Farm. As a result, Gandhiji first son married Gujarati Muslim girl and became Muslim named Abdullah Gandhi. His descendants remained citizens of South Africa. During Indian freedom struggle, Mahatma lived along with freedom fighters in Ashrams. So, another son, Devadas Gandhi married a Tamil girl. Mahatma wished children to cultivate good working habits from childhood so as to become responsible citizens. School incorporated language learning, body building, learning trades and homogenization as part and parcel of education. School pupil earns while learning so that after completing education could stand on their own legs. Gandhiji lived in thatched hut; spanned cotton yarn by hand; wears hand woven cloth and practiced sex abstinence to prevent further childbirth. He approved traditional cattle power farming, hand weaving and other vocations of traditional crafts men since it did not damage ecology. Amish Christians of USA ploughed by horses and followed simpler rural life; maintained full employment level in manual farming with minimum living standards.

CE used colonies as market for industrial production destroyed vocations of yarn spinners, weavers and indigo farmers. Millions of Artisan weavers and indigo farmers died of starvation since could not compete with cheaper industrial products. European medical practices reduced premature death by appendicitis corrective surgery etc. Health department eradicated epidemic diseases, infant deaths and famine deaths. Draught and flood damages drastically eliminated. 15 million industrialized farmers dumped their production on 1500 cattle powered farmers market and caused poverty. American mechanized farms created poverty amongst Korean, Thai, Vietnam, China and other cattle powered farmers. Chinese and Japanese sold as slaves to USA. Korean girls soled in mail order to Canada. Capitalist mechanized cattle powered farming and transportation; hand weaving and others. Indian farmers migrated as coolies to British colonies. Tamil farmers immigrated to serve in European industrial ventures in other colonies. AAL&M 109 national global 43% area equatorial warm RF national death 8, birth 20 and 12 new jobs needed per 1000 population per year accumulated unemployed. Decolonization led to explosion of under-developed populations them denuded 43% of global area AAL&M 109 national equatorial warm RF for enlarging FCL. Industrialization also created, corruption, greed and luxury. Reduction of tall trees 'Green Vegetative Shield Volume Coverage (GVSVC)' created 'Global Warming (GW)' which reduced Himalayan and peninsular glazier, rainfall and snowfall. Monsoon drifted to Ocean. It rained on seas. Populations reduced GVSVC of Mother Earth that absorbed solar radiant energy and CDG which produced organic matter and food chain. Population burned carbonaceous material in homes, farms, township waste dumps, in autos and in industries. Greenhouse gases and CDG accumulation in atmosphere increased global warming. Battery operated two, three and four wheelers eliminate use of petrol and diesel which reduces Muslims incomes. By year 2250 oil and gas exhausts. How can Muslim if exploded by year 2100 to 4.5 billion populations live for million years like Chinese!

Swedish politicians continued to live in own worker's homes even after becoming ministers and Mahatma Gandhi lived in hut. But Indian politicians occupied CE vacated residences; retained CE army and bureaucratic administration. Politicians exploded populations beyond E&ESPL. Capitalist emerged as exploiters that created all evils in India. Money lending, collection of higher interest, luxury car, jewellery advertising by charming women, cigarette by handsome man created major exploitation of humanity. As farming

population exploded 'Per Capita Farming Land (PCFL)' of farmer households reduced continuously. Vote banks subsidy exploded populations. Farmers built bungalows of modern city in new technology with non-native material. They used European medical facilities and conducted marriages in expensive marriage halls by paying higher dowry. They paid large amounts as capitation fees for college admissions. Farmers became very much debt burdened.

CE replaced 'Tall Rain Forest Trees (TRT)' by tea, coffee and cardamom plantations; constructed mountain roads and made life comfortable in MCM. Mountains runoff water reduced due to enlargement of mountain cultivation with new irrigation techniques. 'Linguistic Racist States (LRS)' satisfied upstream river Farmer vote banks by claiming entire mountain runoff waters. Investment on new dams, irrigation channels and free supply of electricity exploded farmer households and they added new commercial crop estates. Upstream dams for political reasons reduced river water flow to Tamils farmers in tail end P&D. Monsoon rainfall became erratic, feeble and sometimes violent. GWI increased in P&D of TamilNadu state. Ground water is not annually recharged and so water table depleted below reaches of open dug wells. Dirty waters percolated through porous soil into ground water reservoirs them poisoned potable waters.

Politicians-built vote banks and exploded populations by religious patriarchy, life activism, 'Arab Burke Culture (ABC)', reservation and tribalism. Muslim and Hindus retained women in 'Family Sex and Servitude (FS&S)'. Exploded Hindus suffered from money lenders tortures; advertising of jewelry, two wheelers and cars. Capitalist exploited urban workers by unaffordable education, expensive medical services and by sweetshops. Oil and mineral rich country Muslim transferred Friday charity to Madras-as, Mosque and educational institutions. Kashmiri Muslim males became super civilized butlers of the world. They immigrated with skill of Kashmir cuisine to Briton as Taj Mahal building super love spouse husband of British CE female. British Kashmiri Muslim financial aid exploded kith and kin in Kashmir. 'Arab Burke Culture (ABC)' created population explosion of Muslims in all nations of the world. AAL&M 109 national Muslims by capitalistic sex practices of alimony married a herd of four women and divorced disobedient wives to marry youngster replacement wives. Family male members honor killed their kith and kin women, publicly whipped, exposed to winter cold without adequate clothing and forced to commit suicide for sex disloyalty. Islam is everlasting childbearing religion. Kashmiri Muslim became 90% since bear lots of children than Hindus women. Hindus reduced to 10% while Kashmiri King continued to be Hindus. Poor super civilized Kashmiri Muslim became slave labor or revolutionary 'Laker-I-Toyba (LeT)'. Foreign petrol-mineral-narcotic \$ flow to united polygamous Muslim with ABC exploded populations larger enough to create 'Global Warming (GW)' that will destroy mankind from Mother Earth.

In past ages Tamils Choler kings inter-married with Telugues princess and cross-bred super dynasty spread Hinduism in Indo-China states and TamilNadu extended hospitality to Telugues as kith and kin. Invaders and immigrants assimilated by Tamils. Inhabitant of Madras State the 'United Tamils State (UTS)' are Tamil only spoken Tamils and eight bilingual Tamils who speak eight mother tongues at home such as Telugu, Kannada, Malayalam, Marathi, Lambadi

(Rajasthani Hindi), Sourashtra (Gujarati) and Urdu. Eight mother tongue languages spoken Tamils lived without any genocide in all Tamils history.

Politicians amalgamated Princely States with Republic of India; abolished English as national language and enforced Sanskrit Hindi. Discontinued 'English Hybridized Vernacular Language (EHVL)' medium education which only united Hindus and others as citizens of Bharatha Desam. Multi-lingual Hindus inhabit Madras State, Bombay state and Assam state fragmented as 'Linguistic Racist States (LRS)'. Politician forced princely states to build LRS and fragmented Hindus such as Assami, Tamils, Telugus, Keralite, Punjabi, Haryana and others as enemy states. Indian constitution continued capitalistic misrule with reservation. Hindustani ruler used Muslim national petrol-mineral dollar inflow for military purposes. Politician built power by vote banks of Hindustanis and Muslims. Banned non-populating sex such as extramarital sex, fraternizing with other males, dancing with other males, exposing charming figure of the female, watching internet sex, traveling along with non-family members, staying in hotels, apartments etc. Politicians approved unrestricted childbirth in life as electoral bribe and created population explosion related poverty, enmity, corruption, greed and riots. Indian 242 million population of year 1900 exploded in year 2000 to 1000 million and depleted water sources.

Politicians became criminals and swindled nation. Election funds collected by selling permits and licenses to capitalists. Bureaucrats paid ransom to politician for transfer and posting. Politicians and bureaucrats constructed national infrastructures with poor quality. Received bribes under judicial protection to lead luxurious life. Capitalist under invoiced exports and over invoiced imports. Reservation privileges and distribution of subsidized food exploded pro-Muslim Hindus and Muslims.

By year 2000, about 500 million engaged in poverty-stricken farming. They sold farm products to 546 million. Government servant two percent of populations of India paid 4 to 25 times of PCI salaries while majority earned less than PCI on irregular jobs. Millions of Politicians and bureaucrats speaking puritan languages swindled public wealth such as river sand, minerals, oars, forest, coal, gas, oil and others. Infrastructure construction used to swindle state. Arms purchase commissions, licensing commissions, permit commissions, exporting minerals commissions, military supply contract commission and others strengthened dynastic rule and political power. Political leaders created most corrupt form of government, which damaged moral fiber of people. Licenses and permits soled to capitalists for electioneering expenses helped to gather black money. Dynastic rule established by spending billions on electioneering. Year 1997 research estimated that capitalist and politician deposits in Swiss bank number accounts exceeded national foreign debt. 'Refugee, Spouse Muslim and Green Card (RSM&G)' of 60 'Christian European Nation (CEN)' and Indian capitalists-controlled India. RSM&G bought castles of royalty in Europe.

Madras State bilingual border districts truncated and annexed with neighbouring princely states. Majority Puritan language of each 'Linguistic Racist States (LRS)' elevated as official language. Travancore Princely state the Tamil-Cherar kingdom divided first as Tamils and Keralite. Thiru Anantha Puram bi-lingual Tamils capital city became capital of racist Kerala state. Devikulam, Pirmedu and Palakkad bi-lingual Tamils districts and Malabar Kasaragod annexed

with truncated Travancore Princely State to create racist Kerala state. As Gulf petrodollars flowed to Kerala; water harvesting increased in mountains. 'Rain Forest (RF)' destruction in mountains reduced rainfall. After gathering Rainwater in Idukki dam Kerala generated electricity and discharged potable river waters to seas. Kolar, Bangalore and Kollegal the North and West Tamil-Kannada districts annexed with Mysore Princely state. Bangalore, a Tamil-Kannada city of UTS became capital of Karnataka state. Tulu, Kurge, Konkani and northern Non-Kannada tribal territories also annexed with Mysore princely state to build racist Karnataka state that exploded Kannadigas population by increasing cultivation of rice, tea, coffee, pepper and cardamom etc. Kannada farming lands irrigated beyond irrigation capacity of east flowing Cauvery River. Karnataka state violated irrigation conventions to fill old dam first and new upper dams last. It filled its new dams by first monsoon rains before filling Mettur dam the pre-monsoon and post-monsoon storage reservoir of Grand Anaikat. Water consumption increased in Karnataka. Cauvery riverbed pumping schemes reduced water flowing to ancient Tamils civilization.

Andhra Pradesh state enlarged by annexing Tamils Tirupati district. Kerala, Karnataka and Andhra states usurped monsoon water catchment territory of Tamils. Cauvery, Periyar-Vaigai, Palar, Pennar, Arani and Coum River delta farmer suffered from water shortages. Water flow reduced in TamilNadu state rivers. Proofs are the dry sand beds of Vaigai, Cauvery, Palar, Pennar and other Rivers of TamilNadu. Suicide of bankrupted young farmers increased. Youths below 25 years of age stopped working in Cauvery delta farming. 'Atmospheric Temperature (AT)' during summer draught increased in barren 'Farmer Cultivated Land (FCL)' to about 40 to 45 degrees C similar to Mid-West summer in USA. Water table depleted.

Tamils puritan linguist politicians not aware that TamilNadu state citizens spoke eight mother tongue languages and London gave mother tongue education in 200 languages. They did not simplify eight mother tongue languages by English alphabets combination simple phoneme scripts as computer software compatible languages. Mao reduced 35,000 characters Chinese to 20,000-character to build mono lingual China. Tamils puritan political parties captured political power in TamilNadu and formulated 'Puritan Technical and Scientific Terminology (PT&ST)' for ET&ST. Schools prevented from using English words. 'English Hybridized Vernacular Tamil (EHVT)' as link language discontinued for eight mother tongues spoken Tamils in TamilNadu. TamilNadu stopped EHVT medium education from 6th classes and spread puritan Tamil medium education which led to very costly and difficult 'English Medium Education (EME)' schools. Politicians built corrupt linguistic racist society. Politicians lacked foresight of chairman Mao; failed to enforce Feminist Socialism, Mao maximum SCL; Swedish 35-years motherhood, child sex parties and teenage jobs to self-sustain at 16-years. Adult did not date and cohabit to rise childbirth age to 35-years. Loyalty of employee to employer and compassion of employer to loyal employee lacked in India to industrialize like Japan.

Tamils became exploiting capitalist and unionized disloyal coolies. Tamils coolies-built trade unionism and failed to be loyal to employers. As population explosion gathered momentum Sinhala Buddhist Monks revolted against tea estate capitalist Hindus and unionized Tamil workers of SriLanka. Capitalist Hindus exploited Buddhist Burmese and Sinhala Buddhists. After Tamils became capitalists Tamils got isolated from Buddhist Sinhala and Myanmar Buddhist. Indian politicians misguided them to return penniless to India. Sinhala killed capitalist Hindus in Colombo riots. Buddhist Sinhala industrialized by dating culture model for industrialization. Feminist casteless Sinhala Buddhist revolted against capitalist Hindus

exploitation. Nationalized Tea estates, repatriated 2 million unionized Tamil coolies and killed evil capitalist Tamils in Colombo riots.

Capitalist abolished traditional jobs by mechanization of cattle powered farming and transportation. Large population depended on few earning members and state subsidy. Mao only identified root cause for human misery and enforced maximum SCL and mandatory work to all to build industrial society. Bharatha Desam built Islamic Pakistan. Sikh religious scriptures are in Punjabi. Sikhism eliminated Hinduism inequality and inculcated patriotism and bravery. Politicians decimated independence movement of Sikhs in Punjab. By year 2020 Khalistan a super Sikh nation like Israel builds in Punjab. Indian politicians grant autonomy to Dalai Lama as King of Arunachal Kingdom. Politician grant autonomy to Christian 'North Eastern States (NES)' to respect Christianity. Eliminate evils of colonization and decolonization from year 2020!

**GANDHIJI AND AMISH CHRISTIAN METHODS ADOPT
BY YEAR 2020 FOR BUILDING GLOBAL GOLDEN AGE!**

5	<p>Enlarging 'Farmer Cultivated Lands (FCL)' for farming vocation led to explosion of under-developed populations which created corruption, greed, luxury and 'Global Warming (GW)'. Pupils and students attended expensive private education to write competitive examination for job seeking. Queued for capitalists hire and fire jobs. Bribed politicians to seek government jobs.</p>	<p>Reduction of tall trees 'Green Vegetative Shield Volume Coverage (GV SVC)' led to reduction of Himalayan glazier and snowfall. Monsoon drifted to Ocean reduced rainfall. By year 2020 stop billion AAL&M populations of year 1950 explode in years 2100 to 9 billion them reduces GV SVC, sanitation, hygiene and creates 'Global Warming (GW)' destructions.</p>
6	<p>'Pakistan Occupied Kashmir (POK)' subjugated women without industrial employment and Muslim lived in tents during severe winter earthquake and cut down mountain trees for fire wood. Unemployable women wedded without job experience remained as dependent house wives delivered lots of children and it led to wealth divisions, poverty, disparity and spread deserts. Kashmiri family average area FCL reduced to 0.5 hectares. Cattle and goats grazing denuded RF as meadows created flood tsunami in Sind river.</p>	<p>Look at BBC records of Pakistan flood, POK earthquake and Karachi rain victims. BBC video picture of Afghan invasion revealed 8 children in all refugee families. Traditional jobs mechanized led to conversion of RF as FCL. Muslim became 90% of Kashmiri Hindu Kingdom. Year 2005, earthquake aerial view exposed dense inhabitation in POK! From year 2020 stop AAL&M population explosion by enforcing Mao maximum SCL and Swedish 35-year motherhood to replant FCL with RF to stop Global Warming!</p>

7	<p>AAL&M politicians exploded populations beyond E&ESPL. 'Per Capita Farming Land (PCFL)' of farmer households reduced continuously. Hindus fencing partition system fragmented agricultural farms and created enmity amongst partitioned family members. Vote banks subsidy exploded populations. Money lending, collection of higher interest, luxury car, jewelry advertising created major exploitation of humanity. Farmers became very much debt burdened. Water starved farmers may revolt.</p>	<p>Indian 1.9% global area equatorial warm RF population density in year 2000, seven times larger than global average. 80% of vital equatorial warm RF denuded to enlarge Indian FCL to produce jobs. Indian 110 million farming household average land holding reduced to 1.5 hectares. Kashmiri farm average reduced to 0.5 hectares while US farms 700 hectares. From year 2020 enforce Mao Maximum SCL and Swedish 35-years motherhood for 3 generations to depopulate to 1950 level before year 2100.</p>
8	<p>'Christian European (CE)' annexed global 77% area with their Empire and soled industrial productions in 'Afro, Asian, Latino and Muslim (AAL&M)' 109 nations as market and reduced epidemic diseases deaths, premature deaths, infant deaths and famine deaths. Life expectation increased and so one billion population of 1950 by year 2100 explodes to nine billion destroy warm RF. Traditional jobs reduction created unemployment. Vote banks creation created national debts. 10	Politicians amalgamated Princely States with Republic of India and discontinued EHVL medium education which only united Indians as citizens of Bharatha Desam. EHVL reduced language barrier in college 'English Medium Education (EME)'. EHVL medium education replaced by puritan languages medium education. Adolescent boys and girls remained untouchables in schools and colleges.	European created Tamil EHVL with 2 set of 26 each English Alphabets (2X26 = 52) and 10 English numerical scripts; ET&ST in Tamil scripts in school education united nine-mother tongues spoken Tamils of Madras state in India. Population explosion in India reduced 'Per Capita Farming Land (PCFL)' to 1/6 of China. Politician manipulated farm labor as vote banks. Reduction of PCFL of farmer and reduction of profit margin in farming killed farming as life sustaining vocation. Educated unemployed queued up for jobs and capitalist employer reduced salary level. Day by day capitalist became richer tycoons due to lower wage structure for educated urban workers. Corrupt political misrule increased disparity in India.

Three languages formula elevated Sanskrit Hindi as 'Administrative Language and Military Language' like that of Urdu in Pakistan. 'Linguistic Racist States (LRS)' elevated 'Puritan Languages' as state administrative language created linguistic racism amongst Hindus. Muslim established minority educational institutions to prevent inter marriage of Muslim female with Hindus males. Rain Forest of MCM replaced with commercial crops estates of tea, coffee, cardamom and pepper which reduced 'Green Vegetative Volume Coverage (GVSVC)' of Mother Earth. Photosynthesis of GVSVC only absorbed 'Solar Radiant Energy (SRE)' and 'Carbon Dioxide Gases (CDG)'. In absence of GVSVC, SRE heats atmospheric air. Seasonal crops like rice and wheat after harvest did not provide GVSVC. Harvested baron FCL temperature increased to desert levels. As mountain states exploded populations; mountain farming reduced water flowing to 'Plains and Delta (P&D)'. Most of monsoon rains runoff waters from 'Monsoon Catchments Mountains (MCM)' used for mountain irrigation of coffee, tea, pepper, cardamom, etc. Capitalist mechanization of cattle powered farming and transport; hand weaving and others reduced traditional jobs. Government created jobs for 2% of people and they swindled nation. Politicians enforced Puritanism by forbidding gay sex fun; lesbian sex fun and heterosexual sex fun with a sex partner as criminal offence. LP studying in 9th and 10th classes of second stream of TEI School must take up 0.35 PCI work training for half days twice in every academic week. School pupils perform about 50 days of 0.35 PCI jobs per year. Budget estimate per annum for SCL children of 1000 million populations at the rate of 0.07 times PCI, for about 16 million school pupils studying in 9th and 10th classes are 1.12 million years of PCI. Then average annual budget equals to (PCI per annum) X 7 ¼ million pairs X 2 (pair) which is 14 ½ million annual PCI. Assuming that 8 million DINK SPL and pair SPV employ at 1.5 PCI, then annual budget equals to (8 million pairs X 2 (pair) X 1.5 X PCI) = 24 million annual PCI. State budget is about 38 ½ million annual PCI. Pair DINK TEP, DINK SPE, DINK SPL and Pair DINK SPV provides 38 ½ million man-years of service. Gandhiji advocated non-violence, depopulated by sex abstinence and homogenized by intermarriage. But capitalist mechanized cattle powered farming and transportation. Mechanized weaving and others eliminated traditional jobs and created hire and fire capitalist jobs. Death 8, birth 20 and new job needed 12 per 1000 population per year. So, majority became unemployed and depended on few earning members. Chinese and Japanese farmer sons and daughters sold as slave to USA and Korean girls sold in mail-order to Canada. Mao was the first leader to reduce childbirth below death rate by maximum SCL; equality of sexes for work; increased child bearing age and within 30 years by totalitarianism solved unemployment problem.

Military empowers DEF with court martial authority to assist DINK SP sociologist to nationalize all religious institutions and bans religious preaching. Patriotic and nationalistic Shinto worship enforces by abolishing Bhakti cult worship. Temples and its assets nationalize to stop exploitation of women by Bhakti cult. Worshipper worships god directly without intermediary ritual and break barriers of religions and sects. Inter-caste marriages eliminate inequality of castes. Abolish inequality of males and females. Kannikastris, virginity and other evils abolish from Hinduism.

Buddhism well established during Buddha's lifetime in Myanmar. Emperor Asoka spread Buddhism by his abdicated son and daughter who became monks. Shinto Hindu-Buddhism practiced in Thailand, Mauritius and Bali islands of Indonesia etc. DEF by reducing Hindus idols in bigger Hindus temple installs statues of Buddha, Mahavira. Christian Altar, Mask and Grant Sahib. Entire Punjab State declares as Khalistan 'Home Land for Global Living Sikhs'. Sikhs only own farming land in Punjab and others sell farming land to Sikhs. They take up other vocations. Buddhists of entire world respects Dalai Lama as holy leader of Buddhists. Dalai Lama declares as king of autonomous Arunachal Kingdom of India. NES declare as autonomous Christian states to be protected by global Christians since Pakistan created for Muslims in Bharatha Desam.

Japanese land owned farmers next only to Samurai the upper most caste but during industrialization farmers became poorest and suffered from poverty like farmers of India. To

transform into a rich society; the uppermost caste farmer women whom used to dance at night to entertain husband danced to entertain others to supplement family income. Japan patronized Geisha Girls sex trade and imported Korean sex workers since every business deal requires sex and wine fun. France created 50% of jobs through vineyards and wine. 'Sex, Toddy and Wine (ST&W)' can reduce suffering by generating more incomes. Drinking alcoholic drinks in a closed room by individuals leads to alcoholism but drinking and dancing for music in public places create fun and homogenizes community. It is unfair to impose Pathni and Islamic puritan cultures on women suffering from transition burden to change to industrial society.

One KFR builds for every cluster of 110 farming households. Dasi home night-club licenses grant to sex workers. Farmers sell Toddy and wine without excise duty to tourist in KFR hotels and Dasi homes. In past ages, Devadasi, a sex worker provided short period of artistic sex life and short duration of family life. She soled sex entertainment to customers with homely dances, song, food and sex in her home. Devadasi sex practices provided better pair sex than night club. Sex art of Devadasi an asset of mankind. In past ages, Urdu Muslims developed Kawali singing and dancing as sex entertaining art.

By year 2020 first 2/3 of urban housing with land nationalizes and by year 2080 last 1/3 urban housing with land nationalizes. Urban young family with child live in 30 SM SBAF and after child finished school education; pursued independent life; parents shift to 40 SM DBAF with GDF; and live with suit cases of personnel things. Female frees from domestic servitude.

Existing cities like Chennai are only stretches of urban nucleus that damaged ecology of cities. City plans like Coimbatore with lots of farming land encircling industries. Two semi-urban nucleuses with 10,000 populations each interposes with one rural nucleus with 5000 populations to build mega eco-nucleus with a total of 25,000 populations. 'Urban Sewage and Waste Recycler (US&WR)' operates sewage treatment plants to reclaim toilet flushing water; irrigation grade water and manure from sewage. Bathed water recycles as washroom waters. Washroom waters recycle as toilet flushing waters. Kitchen waste water and Toilet flushed waters recycle as manure and irrigation grade water for 'Rain Forests (RF)'. Urban domestic and industrial waste disposes safely to save ecology of urban areas. Reduce demolition debris by repairs and renewal of homes till they are beyond economical repairs. Existing larger urban homes and flats use as GDR for rural non-viable farm youngster inter-pairs.

Capitalist created hire and fire jobs. Educational and medical institutions made costly by five stars hotel standards with too many attendants and investigations. People became dependent on few earning members and the state subsidy. Tamils migrated as coolies. Hindus glorified women unemployed as house wives. Hindus and Muslims did not follow Swedish teenage jobs with child sex parties to self-sustain at 16-years age. Even after women's life expectation increased to 70 years of age, adolescents did not date and cohabit to avoid childbirth till 34-years. President Abdul Kalam remained as an unwed. Taj Mahal Building super love showered on his job to build India as military super power. If Muslims and Hindus remain unwed and devote to jobs and vocations then Muslim and Hindus become respected like unwed President Abdul Kalam! KFR convert 67% of FCL as 'Rain Forest (RF)' to save from global warming destruction. KFR in 3 SCL generations reduces 110 million farming households to 10 million viable farms and one million KFR. Enforce housing socialism from year 2020 in urban nucleuses by nationalizing 2/3 of urban housing with land. Wedded live with child in 30 SM

SBAF home and let the child grow with knowledge of love and sex. India limits hotel luxury standards to 3 stars for natives. Sociologist DINK SP appoints as care takers of worshipping places for enforcing Shinto patriotic worship. Intermediary between Hindu worshipper and idol god retrenches. Build Punjab as home-land of Sikhs of the world. Develop NES as autonomous Christian states to respect global Christians. Dalai Lama installs as autonomous King of Arunachal Kingdom in India revives glory of emperor Asoka spreading Buddhism by sending abdicated son Sanga Mithra and daughter Visak as monks to SriLanka. Hindus first priority is to abolish evil capitalism, killing fellow men, robing others and collecting interest by lending money to fellow Hindus. Hindus-permit to deposit money in bank to collect interest. India enforces single economy class public transport. Nation in three Mao maximum SCL generations depopulates reproductive pairs to 1/8 so that to build social equality and rebuild RF in 67% of FCL. Depopulate below year 1950 level before year 2100 to combat 'Global Warming (GW)'.

'Himalayan Peninsular Languages (HPL)' evolved in enclosed Himalayan Peninsular territory are Sindhi language in the West, Punjabi language in North West, Hindi language in North, Bengali and Burmese language in East, Tamil and Sinhala languages in South and other Vernacular languages. They had unique matrix array of script phonemes except for tribal languages. 7, 000 black, light yellow and fair complexioned caste races of Bharatha Desam differed significantly from neighbouring races such as Arabs, Persians, Afghans, Tibetans and Chinese. Male dominated Sanskrits Hindus inhabited in Sanskrit spoken kingdom. Parasurama Rishi a Brahmin killed the king and became king. He as ruler ordered Sanskrit spoken four Varnas men to emigrate and wed virgin Vernacular women by Kannika Dhanam as wives to bear and raise Vernacular Brahman caste children to become religious ruler of Vernacular Hindus. Sanskrit as mother tongue abolished by Parasurama Rishi and Sanskrit spoken nation disappeared since all males emigrated and decimated Sanskrit spoken mothers and sisters.

Afterwards, Brahmans captured political power from Asoka's dynasty and converted humane Buddhists as low caste Hindus. Buddhists converted as inferior Hindus working classes with lowest social status and lived in most unsafe localities of villages abided apartheid segregation laws. Brahman as religious head spread Hinduism by killing socialism, nationalism and territorial defence. Brahman castes enforced male domination, Pathni, inequality, heterogeneity and differential justice with lots of religious dogmas based on Hindus genesis and Karma theories.

Capitalist castes owned all arable lands, hygienic house sites, judicial power and political power. Capitalist Hindus land lords suppressed farm labour for ages without granting any labor rights. Parents arranged most of marriages based on Horoscope, caste and economic status. Brahman supremacy retained with touch me not by lower castes, caste-based work, differential justice, superstitions, taboos, barriers of castes, languages, races and religions. Enforced evils like Pathni and 'Family Sex and Servitude (FS&S)' on female. Indian women did not have freedom like Swedish to fall in love or to date or to cohabit with other males or females. Woman subjugated by 'Single Blossomed Life (SBL)' Pathni, as child bearer, servant and to believe in fatalistic philosophy of Karma, Bhakti cult idol worship and caste system prevented social evolution of Hindus.

Prophet Mohamed opposed caste inequality, priest intermediary between Hindus worshipper and idol god for worship, untouchability, burning live widows with dead husband. Muslims after cladding Hindus widow with burke wedded as wives. Thousand years back kith and kin 1000 Arab Muslim male missionaries immigrated to India; wed widow after cladding with burke and prevented burning along with dead husband as Pathni. Wed Hindustani female virgin or divorce or widow. Cross bred offspring became super races the Urdu and Kashmiri Muslims. Some Vernacular Hindus also converted as Vernacular Muslims. During a period of 700 years, by intermarriage descendant offspring as Muslims became 9% of India. Kashmir Hindus permitted to worship in Kashmir Mosque since ruled by Hindus King. Hindustani women accepted Arab male as kith and kin. They married Arab and covered their hair by sari to become super races Muslims. Urdu language has 90% Hindi words. Kashmiri language has 40% Hindi, 30% Persian and 30% Arabic words since they originated from Hindustani and Persian cross-bred women. Vernacular Muslims crossbreed with Arabs.

By year 1800, CE sailed in sailing ships; exterminated Red-Indians from two continents; captured Africans tribal as slaves and trained them to work as farm workers. CE landed from sailing ships in India; rode on horseback on mountains with Tamils coolies and by power of patriotism, guns and cannons colonized Bharatha Desam. European built roads, railways, shipping lines, airways and postal communication with wireless services. Drilled for oil; built cars, computers and electronics communication. Published newspapers, scientific journals and built international trade. British educated Indians in par with European by 'English Hybridized Vernacular Languages (EHVL)' medium school education and English language medium university.

British observed lower social status for majority 88% of Hindus in comparison to ruling minority 12% capitalist Hindus castes. Nazis interpret this fact through theory of Aryan invasion

of India. This fallacious theory funded by engaging Max Muller a German national for dividing and ruling Hindus. Hitler identified Aryan race by blond hair, blue eyes and white skin. None of the Hindus possessed Hitler's identity of Aryan race. Capitalist castes are not blonder haired; bluer eyed and whiter skinned than European gypsy and European Jews killed by Hitler. Swedes typical Aryan became tomato red after exposure to sun-shine but Indian Hindu did not become tomato red! In Bharatha Desam, all castes had sunshine resistant pigmented skin. 'Aryans' identity in ancient Tamil language differed from "Aryans" identity of Nazis. Physical observation of Indian Hindus revealed insignificant differences between capitalist castes and lower castes. One cannot divide Himalayan Peninsular Bharatha Desam populations as Aryan and Dravidian! Middle European German ancestors never invaded like Southern European Greek Alexander. Closeness in structure of Sanskrit and German language cannot prove that Sanskrit spoken ancestors would be of same genetic origin as Germans since Germans are CE race.

After decolonization reservation and trade unionism weakened Hindus society. The capitalist castes obstructed homogenization of Hindus by continuing to ban freedom for sex and inter-marriages. Capitalist opposed dating as immoral and forbid pre-marital and extra-marital sex. Forbiddance of love interaction between boys and girls increased inter caste barriers. Monolingual hospitable Tamils welcomed other linguistic people of India with open arms like Swedish, French, Dutch and British European. Bilingual Tamils and mono-lingual Tamils live as neighbour caste races in Tamils villages. Multi-lingual-religious Tamils co-existed in 'United Tamils State (UTS)' without genocide for centuries till today. After decolonization Nehru dynasty created 'Linguistic Racist States (LRS) and enforced Sanskrit Hindi but Singapore has four national languages for uniting three linguistic people by incorporating English as common. The creation of LRS by fragmentation of Madras state the 'United Tamils State (UTS)' created linguistic enmity amongst Hindus. Mountain water resources of Tamils blocked by annexation of Tamils tea, coffee and cardamom estates with Kerala. Industrial areas and mountain estate areas annexed with Karnataka and shrimp fishing waters annexed with Sri Lanka reduced fishing rights in TamilNadu sea. Eight bilingual Tamils living with mono lingual Tamils as one nation for centuries as UTS truncated. Majority Puritan Languages enforced as state official language created linguistic racism.

British used English alphabets and numeral to write Vernacular name boards, signboards, numbers and postal address. 'English Hybridized Vernacular Tamil (EHVT)' used English numeral scripts, English words and 'English Technical and Scientific Terminology (ET&ST)' written in vernacular Tamil scripts. Eight mother tongues spoken Tamils of TamilNadu unified by same EHVT as homogeneous society. EHVT Medium of education from 6th classes to 11th classes in schools easier to learn science and technology than 'English Medium Education (EME)' in schools. EME more difficult for non-English mother tongue pupils and EME schools costlier. 'United Tamils State (UTS)' builds by directing TamilNadu State to recognize EHVT as its official language. Every Indian puritan language replaces Vernacular numeral scripts by English numeral scripts and incorporate combinations of English alphabets as additional script

phonemes. 'Puritan Technical and Scientific Terminology (PT&ST)' words replace by 'English Technical and Scientific Terminology (ET&ST)' words in English scripts. Street names, signboards and postal address write in English alphabet. Tamils language has two Ra, two La and three Na script series a total of $13 \times 7 = 91$ scripts which have English alphabet combinations phonemes repetitions. Tamil will eliminate 2×13 Na + 1×13 Ra + 1×13 La scripts and simplify Tamil language. Vernacular Tamil language eliminates 52 scripts so that all rest 195 Tamil scripts write by simple combination of English alphabets. TamilNadu state enforces 195 simplified scripts EHVT as official language. EHVT enforce as medium from 6th classes to 11th classes in schools. English enforce as medium of college education. Indian languages incorporate 50% English words similar to Swedish language. Then all Indian Vernacular linguistic populations unite by equal handicap. EHVT uses ET&ST English words, English numeral scripts, English upper case 26 letters and lower case 26 letters. TamilNadu develop special language learning software to teach other Vernacular mother tongues by eliminating phonemes scripts not of simple English alphabets combinations.

Equatorial warm Rain Forest GVSVC reduced by enlarging 'Farmer Cultivated Lands (FCL)' area. Bore well wet irrigation depleted ground water. Himalayan glazier vanishes by year 2030 and global warming reduces irrigation water by 1/3. Summer atmosphere temperature increases by 1.5 degrees C but reduces yield of rain fed dry crops by 25%. By year 2100 summer peak atmospheric temperature increase above 5.4 degrees C. So, 75% of cultivated areas summer dry crop becomes uneconomical for farmers. Global warming increases atmospheric temperature and create forest fires, epidemics and draught. Famine and diseases devastate Pakistani and Hindustani wheat farmers. 1000 square kilometres of Bangladesh inundates by rising Sea. Reduction of tree canopy coverage drifted monsoon rains to Indian Ocean. Food productions inadequate if populations exploded as per UN projection.

HINDUS AND MUSLIMS DEPOPULATE FROM YEAR 2020 TO BUILD RAIN FOREST TO COMBATE GLOBAL WARMING!

Hindus and Muslims abides Swedish Feminist Laws; Maoism maximum SCL; adopt modern scientific methods of sterilization, contraception, cohabitation, non-populating sex, internet sex, pornographic cinema, sex magazines and other non-populating sex practices to reduce below year 1950 population. Inter-cast, inter-religious and inter-linguistic sex freedom and cohabitation builds homogeneous society.

Sikh Gurus succeeded in uniting caste Hindus as brave Sikhs with patriotism and territorial defence. Honour Gurus for inculcating territorial defence and patriotism. Entire Punjab state rebuilds as 'Sikh Homeland for Global Sikhs' like Israel the holy land for Jews and Christian. Punjabis unite as civilized brave Sikhs in Punjab. Autonomy grants to Punjab state and Punjabis who will not convert to Sikhism sell farm land to Sikhs and take up other vocation. Buddhism born in Himalayas spread by Emperor Asoka by sending son and daughter as monks to SriLanka. So, India installs Dalai Lama as autonomous King of Arunachal Kingdom. NES

rebuild as Christian states to honour Christianity since Bharatha Desam created Pakistan for Muslim.

Indian military enforce from year 2020, Mao maximum SCL, Swedish 35-years motherhood; mother 4-hours job and others 6-hours job. Hindus by year 2100 depopulates to 313 million socialists, Muslim to 37 million and others to 22 million the year 1950 population level. India prevents explosion of populations by year 2100 to 1701 million. Worshipping shrines and worshipping places nationalize and reform as Shinto without intermediary between worshippers and the idol god. If female of the pair bear child after 34 years age retreat to life by getting back surrendered wealth along with pension bonus for national services. Military orders Hindus to changes as Shinto Hindu-Buddhist. Muslim maximum SCL Shinto Feminist monogamy depopulates. By year 2020, land owners surrender 2/3 of FCL to KFR for converting as RF. Monsoons drifting to Ocean and depletion of ground water arrest by reconstructing 67% of FCL as RF. Farmers take up intensive cultivation in 1/3 of FCL with minimum of pumped well water. All Table A, B&C, 70 national Muslims, Hindus and others from year 2020, emulate unwed President Abdul Kalam. Capitalist caste inter-marry lower caste matching spouse to bear single child and raise to 18 years of age by disciplined family life with cordiality towards in-laws for inheritance of parental land, housing, commerce, industry and wealth for 3 generations to build 'Leader Socialist Patriot (LSP)' employer. Indian Muslim and encircling 69 national Muslims depopulate below 1950 population level and unite with Hindus for reducing global warming destructions of human habitat on Earth.

'River Basin (RB)' of continents and islands territory for human evolution. Indian Parliament Members elected from 16 RB territory builds 16 'River Basin Councils (RBC)'. 16 RBC elevate as 16 upper houses of Parliament. In USA, five million farming dependent population cultivated four times larger than Indian FCL. Indian farmer lived as monsoons dependent farming poor. Indian 110 million farming households with 500 million farming populations by year 2000 cultivated one quarter of US 'Farmer Cultivated Lands (FCL)'. Indian RBC enforces Swedish 'Feminist Socialism (FS)', Mao maximum SCL, Swedish 35-years age motherhood; mother 4-hours job and others 6-hours job till depopulates below critical year 1950 population level in every nook and corner of RB. 'Kibbutz Forest Resorts (KFR)' builds for every 110 farming households. By year 2020, farmers surrender 2/3 of FCL to KFR to reconstruct 'Rain Forest (RF)'. Farmers by intensive Jewish cultivation techniques cultivate with minimum of water. RB divides into nucleuses with defined borders holding within 10,000 populations of urban areas with majority on urban jobs as urban nucleus and rural areas within 5000 population majority engaged in rural farming, fishing, pastoral and forestry jobs as rural nucleus.

Two semi urban nucleuses and one rural nucleus blend as mega eco-nucleus so that farm land encircles industry. KFR empower to amalgamate non-viable farm and military recruit youngster as inter-pairs to seek urban jobs. The elders of non-viable farms serve GDR, tourist resorts and RF work employ by KFR. Urban youngster job seekers live in urban retiree homes as GDR. Urban retiree evicts to migrate and invest in KFR GDR to build RF. FUTUROLOGY OF REPUBLIC OF INDIA!

In absence of historical data to build statistical models, only basis for predicting future is by making projections by judgment or opinion of Delphi method. Delphi method asks 'what is next?' Chamber's dictionary defined 'Futurology' as forecasting of future events from present tendencies'. Capitalists mechanized cattle powered farming and transportation; mechanized weaving and others reduced traditional jobs. Hire and fire created capitalist jobs. Hindus and Muslims death 8, birth 20 and 12 needed new jobs per 1000 population per year accumulated unemployed. So, exploded unemployed population denuded Warm Equatorial 'Rain Forest (RF)' to enlarge 'Farmer Cultivated Lands (FCL)' to create self-employment. By year 2000, Indian farming household increased to 110 million and farm average area reduced to 1.5 hectares. Farmers failed to save equatorial warm RF to reduce 'Global Warming (GW)'. By year 2030, due to global warming irrigation water reduces by 1/3 and summer dry crop yield reduces by 25%.

Global 1.9% of land area in India by year 2100 cannot feed 1701 million then 18 % of global populations!

Indian military by year 2020 enforces Swedish 'Feminist Socialism (FS)', 'Depopulating Till Self-sustaining (DTS)' by Mao maximum 'Single Child Law (SCL)'; Swedish 35-years motherhood. Nationalize education, religion, media, judiciary, 2/3 of FCL for RF and 2/3 of urban housing with land of urbanized populations to limit urban housing to 30 'Square Meters (SM)' 'Single Bedroom Apartment Flat (SBAF)' and 40 SM 'Double Bedroom Apartment Flat (DBAF)' with 'Group Dining Facilities (GDF)'. Rural population forbids to build urban homes but lives in simple rural homes. Urban retired evict from urban homes to invest in 'Kibbutz Forest Resorts (KFR)' 'Group Dining Residency (GDR)' to build RF. Retiree home in urban convert as GDR for youngster inter-pair of farms non-viable for urbanization. Elder pairs of farms non-viable serve in KFR urban retirees GDR and assist in building RF. 'WORKAHOLIC SOCIALIST PATRIOTS (WSP)' EMPLOYERS!

Chinese life expectation increased to European level. In the past decades, Chinese did not depopulate like 'Christian European (CE)'. Death 8, birth 20 and needed new jobs 12 per 1000 populations accumulated unemployed. Capitalists mechanized cattle powered farming and transport. Mechanized weaving and others eliminated traditional jobs. Capitalist created hire and fire few jobs. Chinese soled their exploded sons and daughters as slaves to America and Chinese women became sex workers in British Empire colonial states to support families at home land. Chairman Mao's Communist Red Revolution captured political power in China and enforced secular totalitarian European Communism with maximum 'Single Child Law (SCL)'; blue tunic for men and women with mandatory work for every man and woman. Chinese Communist party directed its members to work within cycling range to save petrol and diesel to build industrial society. Chinese care for parents and offspring; perform group exercises and dances to improve health. Chinese 'Workaholic Socialist Patriot (WSP)' employers exports more

and imports less of essential goods. Chinese winning largest medals in Beijing Olympics proved human potentials. Chinese 555 million of year 1950 by year 2100 transform as 1037 million super tigers. Chinese life style sustains for million more years while 4.5 billion Muslims future after military cost escalated or Saudi oil spills in civil war tanker blasts in ocean or battery-operated automobiles reduce oil prices or oil and gas exhausted by year 2250 is questionable. Maiji revolution reformed Japanese employer as compassionate 'Leader Socialist Patriot (LSP)' and worker as loyal and patriotic. Four stratum Japanese unified as one under the Emperor. After Maiji revolution Japanese achieved in 40 years what European achieved in 175 years of industrialization. Socially conscious Japanese LSP employer had compassion for employees and Japanese worker devoted life to welfare of LSP employer. Japanese loyalty to employer built from social needs of inhabiting in resource-less islands. LSP employer and loyal employees by building Japan incorporated created assurance of life to every Japanese without any natural resources. Japanese 'Per Capita Wealth (PCW)' became 100 times larger than India but reduced lifetime childbirths of woman to 1.28. Table 0.10A, Row Y, 8% global area inhabiting 'East Asian National (EAN)', 26.4% of global population the 670 million of year 1950 by year 2100, the global 10.7% populations the 1196 million work in supercomputer programmed industries as super industrial tigers. ALEAN EXPLODES AS RICHER AND COMPETITIVE IN CEN!

The one percent land originated five European imperial national CE dissolved the great five Empires! CE retreated from global 77% area to global 45.8% area 60 CEN. CE depopulates under hire and fire capitalist democracy insecurity as well as in totalitarian Communist dictatorship. CE female deserts male CE to wed Afro-Asian Muslim them desire bearing 'Muslim European (ME)' children to spread Islam. CE workforce as well as rich like Clintons and Gates refused to bear and raise two children in multi-racial USA. In year 1950, Russian European populations of 103 million the 4.9% of global population composed of little ME but depopulated million CE in a year continued for 15 years even though Russian Federation the largest exporter of petroleum gas, mineral oil, gold, diamond, hydro power etc. But Russian Federation 16 million ME of year 2010 explodes to 26 million by year 2100. President Gorbachov by a great fore-thought dismantled USSR to make Asian 6 MEN Republics into independent nations to suffer for exploding 'Muslim European (ME)' populations.

CE male and African female cross-bred sin sex children called Afro-Americans refused to leave USA. They escaped and sheltered in city ghettos exploded above 15% in USA. Amongst them 25% converted as Muslim to explode rapidly. US capitalist to replace the vacuum created by evicted slave labor let in male dominated AAL&M origins into USA as 'Refugee, Spouse Muslim and Green cards (RSM&G)' to suppress 'Christian European (CE)' employees and Afro-American workers. CE employees and Afro-American worker population became poorer than RSM&G in USA. Male dominated RSM&G capitalist by caste, family, sect, religious patriarchal and linguistic unity compete with individualistic CE in business, industry and commerce. In USA the global largest metal parts producer is RSM&G and in Britton RSM&G is

richest. RSM&G settled in CEN and USA overtaken CE employees, Afro-American workers and CE capitalists. RSM&G may gradually take over CE industries and commerce established in colonial era in decolonized 43% of global area AAL&M 109 nations. RSM&G are not living like 'Nepali Regiment (NR)' in British Army to enrich CE.

In past decades; Arab missionary males wed feminist CE female. The cross-bred offspring became 'Muslim European (ME)' in southern Europe, Central Asia and part of West Asia. Arab missionary males as religious duty converted 3.2% of global area feminist Asian 7 'Christian European Nations (CEN)' as 7 'Muslim European Nations (MEN)'. 35 million ME of year 1950 of 7 Asian MEN by year 2100 explode to 201 million but 7 million CE in same Asian 7 MEN depopulate to 1 million in same 150 years. 25% of non-Swedes became spouse citizens in Sweden. Million Kashmiri Muslim males as Taj Mahal building super love spouse married CE British female deserted CE male as religious duty to raise 'Muslim European (ME)' children as citizen of Briton. European pairing average reduced to 15 years. Divorced CE man surrendered residential home to divorced wife with 16 years child support and departed leaving his home for his children, former wife and her new Afro-Asian Muslim husband. Table D, 31 CEN Muslim just 44 million of year 2010 explode by years 2100 to 136 million. 60 CEN by year 2100 will have 15% Muslim population probably as spouse husbands of CE female. By year 2400, 60 CEN become 60 MEN and India become Islamic.

'CHRISTIAN EUROPEAN (CE)' LIVE IN MISERY!

By year 1950, USA was CEN with just 158 million CE with traces of others. Capitalist CE without patriotism, nationalism and love for CE employees and Afro-American workforces outsourced US technology and manufacturing in Asian Sweatshops. East Asia emerged as number one in electronic, computer and automobiles. US General Motors needed bankruptcy protection in USA! In USA, one square mile inherited CE descendant males in misery of deserting CE female overcame capitalists created hire and fire insecurity in life by following 'Double Income and No Kids (DINK)' male and female family life; gay marriage and lesbian marriage without childbirth. USA that drilled Middle East Oil surrendered oil wells! USA and European imperial nations suffer in recession. CE dislike capitalist hire and fire insecurity; Communist dictatorship and disloyal CE females. Misery created in midst of abundance in life of CE. So, refused to bear and raise CE children! 'In year 1950, 752 million rich and powerful European inhabited in 60 CEN had traces of RSM&G. By year 2100, the mighty CE depopulate to regrettable 714 million by DINK normal, lesbian and gay marriage symbol of pessimistic misery.

'EUROPEAN SOCIALIST UNION (ESU)' BUILD BY YEAR 2020!

'Christian Socialist Patriots (CSP)' of Russian Federation, USA and others eliminate distrust and disunity of 60 CEN and Asian 7 MEN. 'European Union (EU)' enlarge to 67 'European Nations (EN)' to unite global 49% of area as one 'European Socialist Union (ESU)

and 'European Common Market (ECM)' since capitalist employer overtaken by 16 hours a day for 7 days a week working 'Workaholic Patriotic Socialist (WSP)' employer of China. They export more and import lesser.

ESU enforce in USA, Canada and Australia maximum 100 'Squire Metered (SM)' apartments as largest home or flat. Energy efficient less polluting city public transport facilities build for schools, factories, shopping centers, amusement parks and theaters to socialize citizens. CE politician, priests and bureaucrats abide by max 'Two Children Law (TCL)' and handover 3 years aged children to 'State Children Home (SCH)' but pick children to spend weekend. Muslim denies rights to date max TCL completed not CE male or female. CE Swedish female as national duty bear CE children and admit children if needed to SCH before dating Muslim. European homes incorporate GDF. EN builds 'Forest Resorts Village (FRV)' with 5000 populations composed of CE retirees, farmers, children and draft military soldier act as Amish Christian farmers to become battle fit. European has technology to tap North Sea oil for creating assurance of life to every European. ESU order Non-English speaking tinny EN to change as 'English Hybridized Languages (EHL)' speaking EN. ESU order employer act compassionate 'Leader Socialist Patriot (LSP)'; recruit loyal max TCL CE mother for 4-hour jobs and others for 6-hour jobs. ESU commands 67 EN to adopt more advanced socio-economic-political system than Communism and hire and fire capitalist funded democracy.

ESU ENFORCE 'CHRISTIAN EUROPEAN (CE)' CULTURE, LANGUAGE AND ALPHABETS:

Arab immigrant missionary males cross-bred with CE feminist female created ME population with 1% Asian Muslim blood. Asian 7 MEN ME, 42 million of year 1950 then 1.6% of global population inhabited 3.17% of global land proved with half global average density as super race. Nazis believed Central Asian as fore-fathers of European but they are now 'Muslim European (ME)'. ME of Russian Federation, Europe, Turkey and former soviet MEN take the lead by adopting Mao maximum SCL; Swedish 35-years age motherhood; feminist monogamy Islam; mother 4-hours job and others 6-hours job depopulates to year 1950 population level and achieve E&ESPL. Europeanize by EHL and English communication to remain good member of ESU eligible for inheritance of parental wealth in ESU!

'CHRISTIAN EUROPEAN NATION (CEN)' DEPOPULATE ALEAN!

By year 2100, 60 CEN hold 994 million composed of 445 million non-rich pro-Muslim CE; conservative capitalist 269 million CE and 280 million richer RSM&G co-citizens. RSM&G with Non-Resident homeland status by year 2100 from global business links may dump low cost products in 67 EN. It may destabilize 60 CEN companies in 45.8% global territorial area may endanger CE. By year 2100, if population of USA explodes to 326 million; then 'Christian European (CE)' will lose ruling power in USA like Afrikaner European in South Africa

and European British in Southern Rhodesia the Zimbabwe! CE as individualistic cannot compete with capitalistic male dominated RSM&G collective family efforts. ESU by law compels Table D, 31 national ME, Afro-American and RSM&G to abide by Mao maximum SCL; Swedish 35-years motherhood; mother 4-hours job; others 6-hours jobs till achieves 1950 population level. ESU recruit DINK SP of AAL&M nations for 10 years contract @ 0.35 PCI for developing EN educational institutions, farms, horse stables, homes and industries. DINK SP employment saving invest in native land KFR eco-farming to reduce 'Global Warming (GW)'. AAL&M national KFR builds ecology and harmony. Retired RSM&G evict with pension to homeland KFR GDR to rebuild RF and youngster RSM&G order plan to re-emigrate to urban areas before year 2100 to build global trade. AAL&M origins forbid bear and raise children in 60 CEN.

ESU order employer act compassionate LSP and recruit loyal CE max TCL mother for 4 hours jobs and others 6 hours jobs. Afro-American, ME and RSM&G depopulate by Mao maximum SCL; Swedish 35-year age motherhood; mother 4-hour jobs; others 6-hour job till achieve year 1950 population level. Remain loyal like 'Nepali Regiment (NR)' of Briton and assist 67 EN to become globally competitive. ESU like Sweden nationalizes Churches, Mosque, Temples, and religious institutions. UN general council reduce national vote value to 0.5 if any AAL&M national population exceeds 1950 level by year 2100 till depopulate like CEN below year 1950 population. 67 EN support AAL&M 'Kibbutz Forest Resorts (KFR)' and employ on contract basis DINK SP from KFR for 10 years @ 0.35 PCI pay to develop 67 EN educational institutions, horse stables, farms, homes and industries. DINK SP savings remits to KFR.

Islam and Hinduism did not incorporate Swedish child sex parties and teenage jobs to self-sustain at 16-years of age and adult did not date and co-habit to enjoy sex without childbirth. Indonesia and others reduced childbirth by 'Two Children' per family norms. AAL&M nations did not enforce chairman Mao's maximum SCL, Cultural Revolution, equality of sexes, mandatory work for every man and women to build industrial society with full employment. Exploded suffered in unemployment, disparity and terrorism. AAL&M 109 national 'Multi-National Corporations (MNC)' under invoiced exports, over invoiced imports and paid lowest tax. Politicians in capitalist funded electioneering democracy exploded populations as vote banks. 45.8 % global area inhabit CE in year 1950 were 29.7% of global population depopulates by year 2100 to 6.4% of global populations but AAL&M 43% global area 109 national 1050 million 41,3% of global population explode by year 2100 to 8803 million then 78.6% of global population and destroy warm 'Rain Forest (RF)' that combats 'Global Warming (GW)'. Nine folds explosion of populations in 150 years increase municipal wastes, industrial emissions, deplete water resources and creates enormous disparity in living. Oil export profit reduces due to soring military defence cost in Saudi Arabia and civil war oil tanker blasts spill oil in ocean. Battery operated cars reduce demand for oil. Oil may be exhausted by year 2250! If Muslim populations exploded to 4.5 billion by year 2100 how to live million years like Chinese?

Students attending a course on 'Psychology of Religions' at Bradley University of USA, judged patriotic and nationalistic Japanese Shinto Religious Practices as best! Shinto worship is only for betterment of nation. Eliminates congregation, religious testament preaching and Catholic Priest Mass Ceremony etc. Caretaker maintains worshipping places and worshipper worship with patriotism and nationalism to his Shinto god or deity whom sacrificed life for national defense. East Asians and Indo-China practiced Shinto worship without intermediary manipulating the worshipper. Japanese and Buddhist of the world subjugate not women in 'Family Sex and Servitude (FS&S)'. Maoism SCL, blue tunic for man and woman; job for every man and woman industrialized China. 'Workaholic Socialist Patriots (WSP)' employer of China works 16 hours day for 7 days a week and imports less but export more. East Asia and Indo-China built super civilization with better socio-economic systems by freeing from sex taboos.

EUROPEAN SOCIALIST UNION (ESU)' DIRECT BY YEAR 2020 EXPLODERS TO DEPOPULATE TO 1950 LEVEL!

The AAL&M 109 national military nationalize education, media, judiciary and religious worshipping institutional assets and military recruit 'Double Income No Kids (DINK) 'Socialist Patriots (SP)' surrendered parental inheritance to military 'Socialist Trust (ST)' as staff with half work load in education, religion, media, judiciary, GDF and GDR with rights for 5 pairs to nominate 6th DINK SP pair to develop political, economic, industrial and commerce institutions with spy monitoring for dedication live in 30 SM SBAF GDR. AAL&M nations enforce equal employment opportunity law to recruit as pairs of man and woman by allotting suitable jobs to women by exempting women from travelling jobs, hard jobs etc. Limit luxury by economy class in trains, in air travel and in hotels. Reduce speed limits of cars and trains to 65% of EU. Sports car and luxury cars forbid for AAL&M native citizens. Homes reduce to 30 SM SBAF for youngster pairs with child. Elder pairs and politician like Governor live in 40 SM DBAF with GDF. Parsee method of maintaining lower childbirth rates and higher PCW would be best practice. Hindus and Muslims enforce monogamy for men. Women the creator of mankind build industrial society by their patience, care, skill and love!

CE whom colonized and increased life expectation 3 folds larger responsible for depopulating AAL&M 109 nations whom denude warm 'Rainforest (RF)' that controlled 'Global Warming (GW)' by photosynthesis. CE nations take responsibility to save mother Earth. They must build 'European Socialist Union (ESU) and unite with UN as 'Depopulating Affluent Power (DAP)' order Muslims, Hindustanis, Africans and Latinos to depopulate in all African 56 nations, South-Central-West Asian 22 nations, South American 13 nations, Central American 8 nations and Indo-China 10 nations by Mao maximum SCL; Swedish 35-years age motherhood; mother 4-hours job and others 6-hours jobs till depopulate below year 1950 level. The basic prerequisite for AAL&M nation with single digit percentage PCW of Japan with male dominated culture are to incorporate Swedish child sex parties, teenage state jobs to self-sustain at 16-years age. During first three blossoms of life up to 34 years of age adapts non-child bearing Swedish sex techniques. Dating sex enjoyment under 34 years of age shall not be punished as sex crime. Impart sex education and provide free medical services to prevent pregnancy and 'Sexually Transmitted Diseases (STD)'. Adults date and cohabit till 34 years by abstaining from childbearing. Hindus homogenize by inter-caste, inter-linguistic and inter-religious sex play. 'Socialist Citizen (SC)' conceives single child after 34 years of age. Divorce biological father responsibility is to share 16 years upbringing cost of his child and surrender 50% of his wealth to mother and remains caretaker of family.

AAL&M countries create urban nucleus for about 10,000 populations inside specified boundary of urban area and create rural nucleus for about 5000 populations living in integral number of hamlets with specified borders. Every two semi-urban nucleuses blend with one rural nucleus to build one mega eco-nucleus. Suitable urban industries relocate to create full urban

employment in semi-urban nucleuses. Sewage treatment plant recover toilet flushing water, irrigation water and manure. Agricultural grade water irrigates urban RF. AAL&M desert national build KDR; adopt 'Jewish Desert Inhabit Technique (JDIT)'; greenhouses use desalinated sea water drip irrigation and salt water lakes with mangroves ecology forest.

Government manages invisible wealth like spectrum, radio waves, cable and operates busses, trains, air lines etc. By marketing national resources create 0.35 PCI welfare employments for unemployed and compassionate LSP create PCI employment to loyal employees. Strikes ban. Pension age increases as and when life expectation increases. Swedes are working up to 65 years. Enforce 6-hour long work to non-mothers. Trade unionism bans to build competitive industrial society with full employment. It is mandatory for every man to work 30 hours per week in urban jobs and 36 hours per week in rural jobs. Every adolescent after completing 10th classes or Plus one or after 16-years of age self-sustain to take up education with state loan or take up 'Labor Market Training (LMT)' to seek jobs. Unemployable take up military LMT jobs at a pay of 0.35 PCI.

Elam capitalistic Hindus case study proved that minority with specific linguistic or religious identity cannot survive without homogenization in any nation. Mandatory inter-marriage laws enforce for inheritance to build homogeneous nations. Decolonized republic citizens by sex freedom inter-marry with majority and homogenize. Swedish, Chinese, Singaporean, Turkish and Japanese reforms adapt for building great nations.

Catholicism implanted in Latino nations with motto of raising more children for spreading Gospel but the cross-bred Latinos population denuded 'Rain Forest (RF)' and smuggled drugs to USA. Latinos population exploded in South and Central America by destroying RF, exports of mineral and narcotics and illegal immigration to USA. If South and Central American 134 million Latinos populations of year 1950 if explodes by year 2100 to 646 million, then destroy Amazon basin RF tall trees. Plantation forest cannot reduce global warming like Andaman Island that eliminated tall RF by plantation. Enforce Swedish 'Feminist Socialism (FS)'; Mao maximum SCL; Swedish 35 years age motherhood; mother 4 hours job and others 6 hours job. US philosophy of 'Double Income and No Kids (DINK)' normal marriage, gay marriage, lesbian marriage culture spreads to Latino nations. UN gives financial assistances to Cuban Doctors and others to start abortion clinics in Central and South America by supplying pills and condoms freely so that Latinos depopulation saves RF. Bench marks countries, the Eastern Europe in year 1950 inhabit by 220 million Communist Catholics by year 2100 will be only 200 million civilized Catholic socialists. Latinos civilizes like Eastern European Catholics by following 'Catholic Birth Reduction Culture (CBRC)' till Latinos reduce below year 1950 level. Then depopulate to E&ESPL. Probably drug production, smuggling and destruction of equatorial warm RF stop.

Equatorial warm Rain Forest AAL&M 109 nations abolish punishment such as honor killing of women for falling in love. Stop mutilating sex drive sources of female to engage in polygamy. Nationalize religious institutions, retrench priests, pastors and Mullahs. Hindus change as Shinto Hindus Buddhist by taking two weeks Monk training for male in a monastery.

Female as Apsaras learn Kama Sutra and train to date males needing love, sex and companionship without conceiving child till 34 years of age. Ban fertility medical practices and fertility drugs till depopulates below year 1950 level. During national service pair DINK SP need not shave head or beg for food but male wear saffron color dress; live in 45 SM SBAF with spouse Apsars female as pair in GDR. DINK SP pair female if bear child after 34 years of age, military releases surrendered wealth and grant national pension for service to retreat to life.

In year 1950, China's 555 million poor the global 21.9% of populations inhabited on 6.4% of global land area. Chairman Mao enforced maximum SCL. President Den-Shuping then permitted 'Workaholic Socialist Patriot (WSP)' employer to produce consumer products by exporting more than importing. As a result, by year 2100 reduces to 9.3% of global population the 1037 million super tigers with Yuvan appreciating over US\$, Euro \$ etc. every day.

Depopulating 60 CEN help AAL&M nations to build 'Institute of Child Birth Reduction (ICBR)' to increase output of diploma and degree doctors to implement Mao maximum SCL for three continuous generations by applying proven techniques to prevent childbirth and impart training to men and women to avoid pregnancy and 'Sexually Transmitted Diseases (STD)'. All eight Kashmiri languages convert as English compatible EHVL with English scripts as duplicate scripts of eight Vernacular languages. Kashmir farmer surrender 2/3 FCL by year 2020 to convert as RF. KFR amalgamate non-viable farms to reduce cultivation and increase RF. By year 2100, Sheep and goat population reduces to year 1950 level. Shepherds urbanize in tourist jobs. Farmers and shepherds engage in planting new pine

Let AAL&M 109 nations abide by Mao maximum SCL; Swedish 35-years age motherhood; mother 4-hours job and others 6-hour job to depopulate below year 1950 level. KFR rebuild RF. Employer act as compassionate LSP and employee loyal to employer. Nationalize education, religion, media, judiciary, GDF and GDR institutions. Youngster RSM&G order to re-emigrate to AAL&M urban to develop global trading.

AAL&M DEPOPULATION REGULATION OF YEAR 2020!

Oil export profit reduces due to soaring military defence cost in Saudi Arabia. Battery operated automobiles will reduce oil prices and oil may be exhausted by year 2250! From year 2020, AAL&M 109 national military nationalize education, media, judiciary and religious worshipping institutional assets and recruit 'Double Income No Kids (DINK) 'Socialist Patriots (SP)' surrendered parental inheritance to military live in 30 SM SBAF GDR appoint as staff with half work load in education, religion, media, judiciary, GDF and GDR with nominating rights to develop political, economic, industrial and commerce institutions with military spy monitoring for dedication. 10 years contract @ 0.35 PCI salary to serve in education, research, horse stables and health care. Pair remit savings to native KFR GDR to build RF to reduce GW. Youngster RSM&G order to re-emigrate to AAL&M urban areas to develop global trading.

WHY EUROPEAN BUILD 'EUROPEAN SOCIALIST UNION (ESU)'?

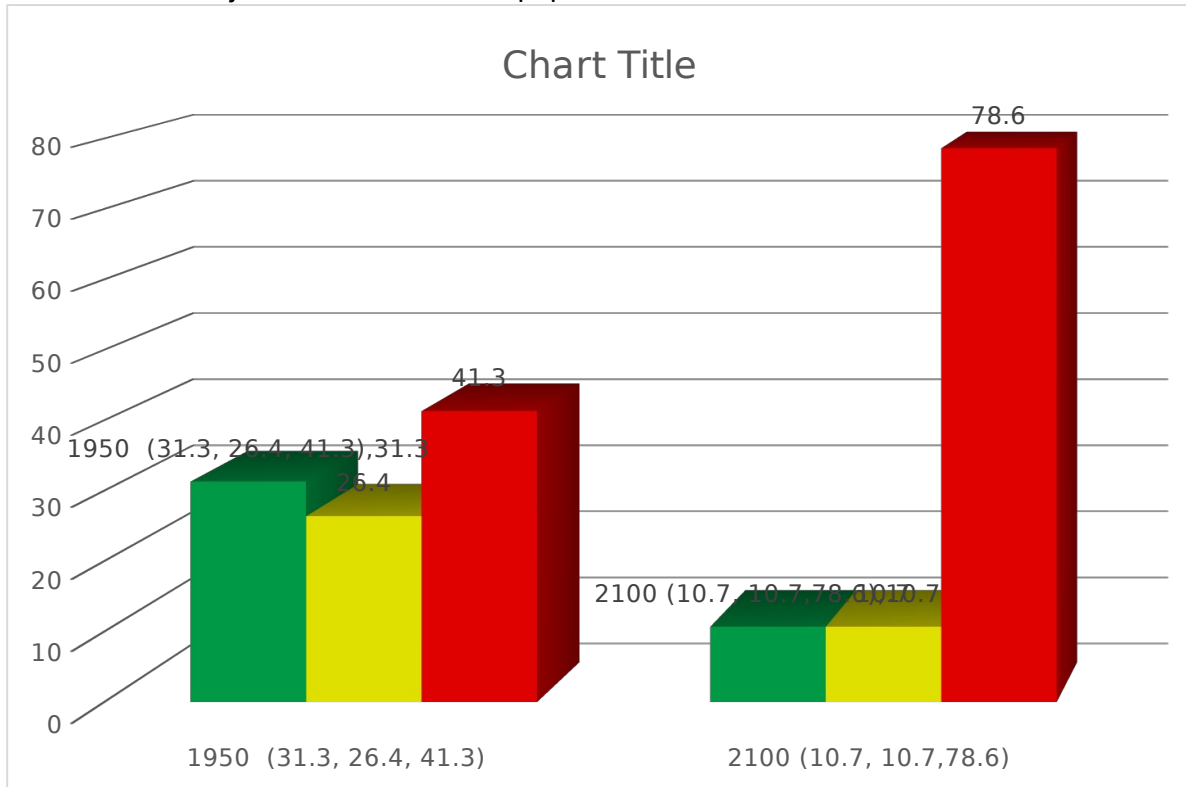

During 20th century less than 1% global area inhabit 5 'Christian European National (CEN)' 'Christian European (CE)' colonized 77% global area land and dumped mechanized farm products on 'Afro, Asian, Latino And Muslim (AAL&M)' 109 nations of global 43% area and opium on East Asian 7 nations of global 8% area. It created poverty on the vast traditional farming populations inhabiting 51% of global area which created misery amongst farming families. Non-colonized 'East Asian National Japan had taken Maiji Revolution. Chinese and Japanese soled as slaves to USA. Korean girls soled in mail order to Canada. Then USA with gunboat diplomacy suppressed human revolutions of South America and Central America. It started Korean war, occupied Japanese Hawaii but could not occupy North Korea! Communist revolutionary Chairman Mao marched through Mainland China and Chian-Kai-Sheik retreated to Taiwan. They reformed Chinese republics.

Japanese, USA and European fought World War II weakened 'Christian European (CE)' nations! By year 1950, CE in a hurry granted freedom to 'Afro, Asian, Latino And Muslim (AAL&M)' 109 nations of global 43% area. European nations built 'European Union (EU)' and 'European Common Market (ECM)!' Decolonisation of AAL&M 109 nations exploded population; denuded warm 'Rain Forest (RF)' and depleted water sources. Most of those nations suffer in very many miseries and terrorism. Forest fires in warm RF nations during severe draught will be more severe than colder forest fire of Russia in year 2010. It is most important to raise water table in AAL&M nations to safer level by reducing water pumping by nationalizing 2/3 FCL and 1/3 FCL cultivate by Jewish cultivation techniques with least water. Food grains needing more pumped water import from mechanized farms of CEN. Replant warm 'Rain Forest (RF)' in 66% of FCL encircled by 1/3 FCL to protect from fire in Afro, Asian, Latino and Muslim (AAL&M)' 109 nations them absorbs carbon dioxide gases and solar radiant energy by photosynthesis is most essential to combat 'Global Warming (GW)'.

Capitalist funded electioneering democratic 60 'Christian European Nations (CEN)'; 7 'Muslim European Nations (MEN)' and 109 'Afro, Asian, Latino And Muslim (AAL&M)' nations exploited by evil capitalists is evident from falling currency value in comparison with EAN. Further imports are more than exports. 'East Asian Nations (EAN)' with 'Leader Socialist Patriot (LSP)' employer built super socio-economic system that exports more and import lesser. Currency value is appreciating day by day. The future is brighter in year 2100 for LSP employer managed EAN living on 8% of global area to dominate the rest of the world industries and commerce. EAN may dump cheaper products in 67 'European Nations (EN)' and in AAL&M 109 nations. History of less than 1% of global area inhabited CE domination may be repeated by 8% of global area inhabited 'East Asian Nations (EAN)'.

Israel is 'Christian European Nation (CEN)' since European Jews are 99% CE race. CE race inhabit as majorities in 60 nations of 45.8 % of global area. 'Muslim European (ME)' are 99% 'Christian European (CE)' race. ME majority inhabit 7 'Muslim European Nations (MEN)' of global 3.2% of area. 'European Socialist Patriot (ESP)' of USA, Soviet Russia and others of 60 CEN and 7 MEN may consider it as responsibility to save tinny 'European Nations (EN)' speaking many languages and Israel. Depopulate exploding 'Muslim European (ME)' in 7 MEN and others CEN such as Soviet Russia, Briton, France, Albania and Kosovo. Afro-American and 'Refuge, Spouse Muslim and Green-cards (RSM&G)' to year 1950 level by enforcing Mao maximum SCL; Swedish 35-year motherhood till reduce to year 1950 population level. 'European Socialist Union (ESU)' of 67 'European Nations (EN)' build military power by one military force and economic power by one 'European Common Market (ECM)' of 49% of global area. ESU enforces 'Feminist Socialism (FS)'; 'English Hybridized Languages (EHL)' in school education and English medium in higher education. The most depopulated CE enforces maximum 'Two Children Law (TCL)'. It would be duty of every 'Christian European (CE)' including Christian celibate Priests and Nuns to bear and raise at least one 'Christian European (CE)' child for a 'Christian European (CE)' race spouse to get ordained as priests. 'Christian European (CE)' woman must bear two children to 'Christian European (CE)' race male before

she can date non-Christian European races them explode by year 2100 above 1950 population level which creates 'Global Warming (GW)' that destroys mankind. Afro-American, 'Muslim European (ME)' and 'Refugee, Spouse Muslim and Green-cards (R, SM&G)' populations enforce maximum 'Single Child Law (SCL); Swedish 35-years motherhood; mother 4-hours job and others 6-hours job till reduce to 1950 population level in all 67 EN.

CE in year 1950 with inadequate constitution defectively decolonized 1050 million people of 'Afro, Asian, Latino And Muslim (AAL&M)' 109 nations. UN forecast them explode by year 2100 to 8803 million; deplete ground water; spread misery to 6000 million Hindus and Muslims and cause 'Global Warming (GW)' destructions of humanity. ESU with UN can only arrest it by enforcing 'Feminist Socialism (FS)'; Mao maximum SCL; Swedish 35-years motherhood; mother 4-hours job and others 6-hours job till depopulate to year 1950 level. Hindus capitalist caste order to inter-marry low caste qualified spouse to bear and raise maximum of one Child after 34 years of age and raise the child to 18 years to inherit grandparental commerce, industry, housing, land and other wealth. This continues for three single child generations as penance for capitalist's exploitation of low castes in past ages. If one spouse upper caste the child upper caste, then low castes vanish in 3 generation of inter-marriage. One 'Double Income No Kid (DINK)' 'Socialist Patriot (SP)' appoint to every Indian 110 family farm clusters as head of 'Kibbutz Forest Resort (KFR)'. KFR nationalize non-viable family farms; employs non-viable farm elders as employees to assist urban retirees engaged in planting RF in 66% of 'Farmer Cultivated lands (FCL)'. Military recruits non-viable farm youngsters as inter-pairs and urbanize in retirees evicted urban homes converted as 'Group

Dining Residencies (GDR)'. Urban retirees migrate to desired KFR GDR to spend lost period of life investing savings to build RF to save human habitat on Mother Earth from 'Global Warming (GW)' destructions.

ESU builds 50,000 hectares 'Forest Resort Village (FRV)'. Retired evicts from urban homes to invest in 50,000 hectares FRV GDR in 100 hectare national farms! Manage national farm and convert 66% of FCL as RF or serve 'State Children Home (SCH)!' Raise children as 'Socialist Patriot (SP)!' ESU recruit conscript army in 'European Nations (EN)' and drafted soldier function like Amish Christian farmer for 50% of draft period to assist retired! CE draft soldier rebuilds super strength by riding horses and ranching! In periphery of FRV residences build horse stables! Farmer cycles to periphery stables, pick up a horse and ride to farms! ESU evicts retired 'Refugees, Spouse Muslim and Green-cards (RSM&G)' with pensions to 'Afro, Asian, Latino And Muslim (AAL&M)' native national 'Kibbutz Forest Resort (KFR)' with 'Group Dining Residencies' (GDR) to build 'Rain Forest (RF)' in 66% of FCL. RSM&G youngster order to plan to retreat to native national urban areas and build global trade links. By year 2100 'Christian European Nations (CEN)' frees from explosion of Afro-American, 'Refugees, Spouse Muslim and Green-cards (RSM&G)' and ME. None make in road in to CE life. DINK SP recruit to serve CEN for 10 years contract service for a pay of 1/3 PCI of the employer nation in education, research, sanitation and horse stables to fill the vacuum created by evicting R, SM&G. AAL&M nations food grains, milk and butter from CEN to save RF and ground water.

WHY BHARATHA DESAM REFORM DEMOCRACY AND POLITICS?

In adult franchise capitalist funded electioneering democracy, individuals attracted masses by their speeches or by writing became politicians. Political speakers and writers did not have money for funding political activity and lacked lifelong assured political vocation with pay for living expenses. So, they earned money in indirect ways by corrupt practices and cheated the nation. Politicians squandered national wealth to build vote banks and capitalists exploited politicians for hoarding their amazed black money. Tamils voters expected money for casting ballots. Tamil politicians paid voters up to Rs. 20,000 for casting single ballot from money swindled from nation. Politician and vote banks colluded to empty state treasury by free gifts of land and money. Five-year plans rapidly industrialized India. Medical expenses are exorbitant. Luxurious wedding jewellery, dresses, marriage hall rental very costly. City populations explode day by day. Summer become hotter year by year. Chennai and other cities suffer from water shortages in every summer. Bungalows construction may exhaust in 100 years all sand produced in millions of years of flowing TamilNadu rivers. Millions remain criminals and corrupt in TamilNadu. Judiciary let free politician, bureaucrat and criminal unpunished with policy of punish not innocent. TamilNadu the most corrupted state in India. India and encircling 69 Muslim national Hindus and Muslims by year 2100 explode to 6000 million population and suffer in misery. Pakistan Urdu Muslim politicians may engage in deadly atomic war. After the war even grass will not grow in Pakistan.

Indian land is only $\frac{1}{4}$ of China and India also has limited water resources since Tibetan waters diverted to China and perennial rivers are not perennial any more due vanishing ice melt Himalayan flows. Further by year 2022, China population reduces to Indian population level and India suffer from depleted ground water and irrigation water. Monsoons become violent and damages farming by draught and floods. For saving people military recruit 'Double Income No Kids (DINK)' 'Socialist Patriot (SP)' pair given undertaking to surrender parental inheritance to and train to take up regular service jobs in education, religion, judiciary, media, 'Group Dining Facility (GDF)' and 'Group Dining Residencies (GDR)' with half professional work load to function as lifelong politician with five pairs nominating 6th pair as candidate for political functionary or higher cadres jobs whom elects by lots. They live under monitoring in GDR. When they are selected as political functionary grant duty leave for one of pair member while other become full time in vocation. DINK SP the male wear Safran colour dress and female dress like Apsaras. If the pair Apsaras female conceives after 34 years age; then pair leaves service with pension for national service. Military takes feedback and calls back inefficient without corporal punishment. Thus, adult franchise capitalist funded electioneering democracy and vote banks exploitation eliminate in 'Feminist Socialism (FS)' 'Depopulating till Self-sustaining. Those dedicate their life for the nation alone decide future of nation and not corrupt politicians and selfish vote banks.

DINK SP five pair serving urban nucleus of about 10,000 populations or rural nucleus of 5000 population area nominate 6th pair as nominee for DINK 'Socialist Patriot Elected (SPE)' and amongst nominees one pair select by lot system as DINK SPE of that particular nucleus as president. TEI employ DINK SP with half work load with life-long educational vocation and political activity live in GDR. Politician live lifelong with simplicity of Gandhiji as military monitor civilian politician. During national service every DINK SP remain either normal pair or gay pair or lesbian pair. Normal pairs can only be staff of primary and high schools. Pairs cannot conceive below 34 years of age and if conceive after 34 years of age grants pension for national service and surrendered inheritance returns to start life.

The population explosion depleted water sources, increased green-house effects and 'Global Warming (GW)' threatens existence of mankind on mother Earth. Politician educate the masses about birth cost, education cost, marriage cost, funeral cost and employment seeking cost and employment creation cost for their children. The people must follow Chairman Mao principle of maximum 'Single Child Law (SCL)'; Cultural Revolution; and equality of sexes enforce to build super industrial society that will replant 67% of FCL as warm RF to combat GW before year 2100.

Indian women's life expectation increased from 20 to 70 years. So, start with child sex parties with sexually immature boys and self-sustain at 16 years. From 17 to 34 practice Apsaras Kama Sutra sex and love to remain Apsaras on earth to date males needing love and sex to build heaven on earth. After 34 years age bear the single child that will find 'Campus Interview Jobs (CIJ)'. This can be done only when Hindus and Muslims conduct child sex parties and create teenage jobs to self-sustain children at 16-years of age. Male by taking two

weeks of Monk training, become nonviolent, feminist and desists from subjugating female in family sex and servitude. Female remains without bearing child till 34 years age looks like Apsaras in heaven on Earth. Adults date and co-habit and live without baby till 34-years of age. It creates heavenly life in Hindus India. Hinduism convert as Shinto Hindus Buddhism by providing lifetime mandatory two weeks Monk training for Hindus male in Buddhist Monastery.

During national service every DINK SP remain either normal pair or gay pair or lesbian pair. Normal pairs can only be staff of primary and high schools. Pairs cannot conceive below 34 years of age. Government develops safer childbirth reduction methods at inexpensive cost to help people to abide Mao maximum SCL and child bearing after 34 years of age to depopulate India to year 1950 population level. Childbirth age of educated increase above 34 years of age. One shall not populate overpopulated India with overseas earned money. Indian childbearing people forbid to migrate for overseas employment to bear children in India. Only 'Double Income No Kids (DINK)' 'Socialist Patriots (SP)' surrendered inheritance to military willing to invest savings for 'Kibbutz Forest Resorts (KFR)' 'Rain Forest (RF)' program only take up 10 years foreign service as technician or professional @ 1/3 PCI or higher job of employer country. Government use mineral, oil wealth and tax to industrialize nation. Women and men take up productive work so that combined savings increase capital accumulation leading to investments in mutual funds and in Bank liquid assets. Money lending amongst citizens with interest payment forbidden but free gift permissible. Land and housing will not be used to store money. Indians can reduce to 372 million of year 1950 level if bear and raise Mao maximum of one child after 34 years age like Swedish mothers.

WHY AND HOW INDIA REFORM BUREAUCRACY?

Bureaucracy is administration by technician and it proved to be most efficient tool during British rule. But after independence Indian politicians corrupted bureaucracy. Bureaucrats favoured capitalists by issuing licenses and permits amassed wealth and power. Politicians collected money for appointment, postings and transfer of bureaucratic government servants. Politicians fixed higher pay for government jobs by pay commissions and recruited with larger ransom for appointment. USA pays 1.3 times its PCI to world class assistant professors while Indian politicians pay 10 times PCI for no work. Politician lute the state by paying higher salary and by collecting ransom for appointments. During TEI education students must take up preliminary student training for specific services such as national 'Military Bureaucratic Services (MBS)' class IV and Class III, 'Conscript National Service (CNS)', 'Conscript Military Service (CMS)', 'Conscript Police Service (CPS)', 'Conscript Technical Services (CTS)', 'Conscript Sanitary services (CSS)' and etc. After completing minimum of certificate courses before taking up a carrier build DINK 'Trainee Educated Pairs (TEP)' to seek national mandatory two years lifetime service jobs by living in military barracks under vigilance to replace retired class III and IV employee mandatory two years national service. Then they become DINK 'Socialist Citizen

(SC)' to qualify to apply for driver license, passport, bear and raise single child after 34 years of age etc.

DINK SC five pairs select the 6th pair as nominee to serve MBC class II. They will be called trainee DINK 'Socialist Patriot Volunteer (SPV)' and after five year-service become DINK SPV. Five DINK SPV nominate 6th DINK SPV as trainee DINK 'Socialist Patriot Lifetime (SPL)' nominee for MBC class I and amongst nominated required numbers selects by lots to serve as trainee DINK 'Socialist Patriot Lifetime (SPL)'. After 5 year-service elevates as DINK SPL. Thus, all higher cadres of government employment selected.

HOW INDIA REFORM HINDUISM AND HINDU SOCIETY?

People entering temples pay for seeing deity worship organized by intermediary between deity and worshipper Hindus. Eliminate intermediary between God deity and Hindu worshipper. Keep jewelled and decorated deity in glass case for accessible worship with many ques like Golden Temple by abolishing Abishegam, Aradhana and other rituals of intermediary priest. Existing large Hindus temples replace some idol gods by statues of Buddha, Mahaveer, Christian altar and a mask without deity so that other religious people can worship in one place as group. Enforce Shinto worship. People be free to worship and give offering in temple inner periphery like Budd-Gaya and Myanmar Buddhist idol worship temples. All religious people enter temple to worship their favourite gods!

Beef one of costlier eaten meats shall not be prevented to eat by Muslim, Christian, Tribal and others. If beef eaten by people; cattle breeding adds to income of Hindus farmers. Every year about fifty million cows die and meat is wasted. As native cattle yield less milk Government imported Jerzy bulls for cross breeding to get more milk. The native breed can only stand the hot climate is vanishing. Farmers can be encouraged to breed native cattle as working animal and for beef.

Hindus and Muslims emulate President Abdul Kalam, a son of Muslim fisherman by focusing his super love for his job-built atom bombs, missiles and launched satellite. Capitalist caste Hindus order to inter-marry qualified low caste spouse to bear single child after 34 years of age and raise till 18 years by disciplined life to inherit grandparental wealth commerce and industry. If one spouse is upper caste then offspring declared upper caste; then in 3 generations all lower caste vanishes. If any remain puritan upper caste then state confiscate all wealth and businesses. They will be forced to function as scavengers. Bharatha Desam had already created Islamic states during partition! Now they must give autonomy to Punjab and create it as Khalistan the super nation of Punjabi Sikhs! Arunachal Pradesh become autonomous Buddhist kingdom ruled by Dalai Lama. North Eastern Christian majority states become autonomous Christian states like European nations.

WHY TO BUILD RIVER BASIN COUNCILS?

'River Basin (RB)' the territory of human evolution split as urban nucleus of about 10,000 populations with majority engaged in urban jobs or rural nucleus of 5000 populations majority engaged in rural jobs. Five pairs of DINK SP nominate 6th pair as nominee for DINK 'Socialist Patriot Elected (SPE)' and amongst nominee one pair select by lots as DINK SPE of nucleus to rule nucleus as President. This method eliminates capitalist funded electioneering and vote banks swindling state. In 'Member of Parliament (MP)' constituency area five 'DINK SPL and DINK SPE nominate another pair as MP candidate. One amongst them select by lots as MP. 'River Basin (RB)' territory MP builds 'River Basin Council (RBC)' to look after ecology of RB. Every River Basin builds one upper house of Parliament and depopulates below 1950 level of cattle and humans. All MP of a nation builds 'Lower House of Parliament'.

HOW TO REFORM CAPITALIST EMPLOYER?

New regulation for hire and fire capitalist employer is to function as 'Leader Socialist Patriots (LSP)' employer investing profits for expansion and diversification. Employer shall not invest on luxury homes, cars, yachts, casino gambling, luxury dresses, marriages, trusts etc. Nation limits freedom, fraternity and liberty. Nation limits luxury to live, luxury dresses to wear and for Apsaras jewellery. They are proportional to number of employees employed. LSP employer pays PCI pay to loyal employees and pay 0.35 PCI for non-dedicated unemployable but offer lifetime employment. If employ less than 10 employees live in 40 'Square Meters (SM)' 'Double Bedroom Apartment Flat (DBAF)' with 'Group Dining Facility (GDF)'. Employ secretary, servant cum driver and use car. Hindus capitalist caste employer inter-marry qualified low caste matching spouse; bear and raise child after 34 years age of mother and raise till 18 years of age of child with disciplined family life with good relations with elders to inherit grandparent's land, commerce, industry and wealth. This continues for 3 generations with rule if one spouse upper caste the offspring upper caste. Low caste disappears. By year 2100 if any remain puritan capitalist upper caste forego all land, commerce, industry and wealth to state and function as scavengers.

WHY KFR MUST AMALGAMATE NON-VIABLE FARM LAND AND SEND URBAN RETIREES TO KFR GDR!

Kongu Farmers the upper-caste Tamils Gounder community only reduced childbirth as and when monsoon failed and water depleted in wells. Kongu districts of TamilNadu by dedicated hard work solved problem of water shortage, industrialization and mechanization of farming. They are a model for global populations to maintain 'Green Vegetative Shield Volume Coverage (GVSVC)' of mother earth. Women reduced cooking time; childbirths and raised age for first delivery and do major agricultural work. Men learned new trades. Half a million village

communities spread all over India. Indian farmers did not adapt technics for lowering childbirth rate below death rate. Higher birth rate reduced 'Per Capita Farming Land (PCFL)' of farming family members. During years 1930 to 1990 farming population multiplied by three-folds. Group study of socialistic joint families revealed enormous population growth. Continuously population level increased and village jobs shrank due to capitalist's mechanization of cattle powered farming, transport and handy-craft weaving vocations. Unemployed villagers are migrating to many countries for employment. Malaysia, Singapore and Middle East have family connections. Tamils farmers seek overseas jobs and women bear and raise lots of children. Exploded youngster farmers become non-viable and denuded 'Rain Forest (RF)'.

India has 110 million independent farms with an average land holding of 1.5 hector FCL out of which 75% dry crops and 25% wet crops. About 500 million people dependent shareholders of these farms. By year 2000, average daily income of a member of these farming family five rupee a day while rupees 20 wages for carpenter. Further 200 million villagers seek jobs in 110 million farms. Due to global warming by year 2030 irrigation water supply reduces by 1/3 and summer dry crop yield reduces by 25%. By year 2100 summer peak temperature increases above 5.6-degree C and summer dry crops uneconomical. Farmers of Pakistan and Northern India will suffer from draught, heat wave and epidemic diseases like Dengue, Cancer etc. Further 200 million men and women seek jobs in 110 million farms. Every 110-farming household cluster build one 'Kibbutz Forest Resort (KFR)'.

Like Japanese Samurai Kings, farmers as custodian of Earth take responsibility and come-forward to make sacrifices to plan for million years of life for mankind on Mother Earth. Farmers order to surrender 2/3 of 'Farmer's Cultivated Land (FCL)' to 'Kibbutz Forest Resort (KFR) for planting 'Rain Forest (RF)'. KFR convert as natural 'Rain Forest (RF)' with huge trees of past decades. Forest and FCL build adjacent so that forest fires contain in forest area. Viable-Farmers follow Jewish intensive cultivation in 1/3 of FCL with minimum of ground water pumping and raise water table to safe guard from forest fires. Military enforce Mao maximum SCL; Swedish 35-years motherhood to farming families. Farmers land holding limits to 5, 10 and 15 hectares in 3 SCL generations including 2/3 as RF land reduce viable farmers to 10 million with maximum ceiling limit of 15 hectares including 10 hectares Rain forest by Swedish farm modernization technique then only India can combat 'Global Warming (GW)'. Farmer viable make compost out of organic matter; follow American practice of spreading hay or wood chips on root area to prevent growth of weed and to preserve soil moisture. Ecological friendly farmer will not burn any organic matter but compost as manure or spread them over root zone to retain moisture.

Viable farmer learn carpentry, plumbing, pipe laying, masonry, farm machinery operation and maintenance. Farmer learns techniques to design and construct viable farmer temporary homes. Farmers educate in self-help program such as building kitchen, bathroom, toilet with septic tank, cattle shed, fence, drip irrigation, sprinkler irrigation, overhead tank, laying water pipe line, plant nursery and other activities. KFR establish a base workshop; impart basic training to use machinery and equipment; and lend tools for various farming and construction

activities required for modernization. Impart special training to viable-farmers to read drawings, learn budgeting, costing and profit evaluation.

Non-viable farm elders absorb as employees of KFR. Urban retirees evict from urban homes to live in KFR 'Group Dining Residency (GDR)' of their choice to spend their last period of life with nature in simple retiree homes to engage in building 'Rain Forest (RF)' by investing life savings. Money flow of retired finances for replanting RF. Retired RSM&G pensioners return to KFR GDR of their choice to build RF. KFR rebuild 66% of 'Farmer Cultivated Lands (FCL)' into 'Rain Forest (RF)' by employing non-viable farms elders. Future of India depends on how KFR rebuild RF to combat global warming and how non-viable farmer youngsters urbanize as inter-pairs to better Indian industrialization. Urban retired spend their last period of life with nature and embrace natural death rather than extending old age in American type old age homes. Non-Resident Indian retired RSM&G pensioners return to KFR GDR of their choice to build RF and embrace natural death like Dr Lalitha Kabilan. Urban retirees lead simple retiree life by engaging in building RF by investing life savings.

PLAN FOR 'KIBBUTZ FOREST RESORT (KFR)'?

Select village contiguous Revenue Survey map that provides detailed division of 'Farmer Cultivated Lands (FCL)', river, lake, ponds, canals and others of village. Select the cultivated land area and the village and village hamlets areas. Identify total area of land and population cultivating this land. Correlate survey numbers with land owners list of 'Village Administrative Officer (VAO)'. Identify farming family land hecters of land to be managed by one 'Kibbutz Forest Resort (KFR)'. It can be more than 110 or less than 110 farm family land. Large concrete buildings built in these clusters nationalize by KFR to use as urban retiree homes. Military order all farmers surrender 2/3 Farmer Cultivated Lands to KFR to convert as 'Rain Forest (RF)' and recruit rural non-viable farm youngster inter-pairs for urban 'Labour Market Training (LMT)' jobs to prevent them engaging in farming to save ecology by urbanizing in urban retiree homes converted as 'Group Dining Residencies (GDR)' by offering food and shelter for pair with freedom to choose new trade in urban area. South American 80% of population live in few cities. SriLankan 80% population live in Colombo.

BUILD URBAN GDF TO HOMOGENIZE INDIANS!

TamilNadu provides free rice, subsidized pulses, oil and Pongal presents for family ration cards. Amma hotels gives subsidized hotel food. Single women cook and serves 50 people in temple free mid-day meals feeding program. Santhi Canteen of Coimbatore people stand in queue for an hour for meals served in a plate in cups to eat in dining hall and gives extra food too at cost price. Sridi Prasad Stall serve on table by moving trolleys on table an excellent well-cooked food at cost price. TamilNadu divert family ration and Hotel finances to 'Group Dining Facilities (GDF)' with optimum walking distances. GDF create opportunity for people to

eat together which homogenize and equalize citizens. Enforce Sai-Baba proven love all and serve all philosophy by GDF eating culture in modernized kitchen cum-dining hall serving for a group of families using food processers, steam boilers and trolley for food serving. Enforce one-hour duty to every day to all members and train to cut vegetables and make dishes. Iddly and Dosai make in shop techniques. Solar water heater produced steam cooking can be used for rice, vegetables and Iddly. People train in cooking, cleaning mess hall, cleaning plates and dish wash cooking vessels. GDF utilize solar energy for cooking and developing many varieties of food which can be cooked with solar energy reduces carbon-dioxide emission. The world's ecology development funds invest in developing solar cooking in GDF to reduce burning of fire wood and cooking gas producing carbon-dioxide gases in many homes. People can use cycles, electric two wheelers to reduce commuting time. For handicapped people special home service can be arranged so that about 100 people serves by GDF. It would be mandatory for every Indian to take at least one hour of community daily service by abiding Sathya Sai 'Love all and serve all' for building a great Hindus nation.

Boys and girls will find new interest in life other than bearing and rearing children by offering Kibbutz collective life facilities with many amenities of life. Women frees from domestic servitude. Women can take up employment like men. GDF will eliminate inequality of males, females and castes. Men and women contact many interesting personalities every-day and professional competition demands more devotion for developing one's skills to become better citizens. Women from cook and child bearer transforms in to employed and independent person. She develops new interest other than building a family by being the hen. As a result, life and living modernizes and reduces childbirth rate. Single child families provide an opportunity for children to have play mates and relieves much problem of parents by better and hygienic playground, reading rooms, educational facilities and guidance. Qualified members train to maintain accounts and statistics. Auditors check accounts and transactions of GDF.

RURAL FAMILY GROUP DINING FACILITIES!

TamilNadu provides free rice and subsidized family provision, Pongal presents and Amma hotel subsidized hotel food. Now catering is very well advanced. Single women cook and serves 50 people in temple free food program. By diverting family ration to 'Group Dining Facilities (GDF)' force people to homogenize and equalize by eating together. It can incorporate many salient features of Kibbutz. Change-over to Sai-Baba proven love all and serve all philosophy by building GDF to cook in modernized kitchen cum-dining hall with food processing equipment, steam boilers and food serving facility for a group of families. By mandatory one-hour service to GDF people train to cook, cut vegetables and make dishes. Iddly quality rice supply to GDF and GDR. Iddly and Dosai make in Iddly Shop techniques. People train to serve dishes, help in food processing, cleaning mess hall, cleaning plates and dish wash cooking vessels. GDF utilize solar energy for cooking and developing many varieties of food which can be cooked with solar energy may reduce the carbon-dioxide emissions. The world's ecology

development funds invest in developing countries to introduce solar water heater to supply steam for cooking in GDF and in GDR. Certain dishes can also be cooked in solar heated containers to reduce burning of fire wood and cooking gas producing carbon-dioxide. Steam cooking can be used for rice, vegetables and Iddly. Women freed from domestic servitude. GDF will eliminate inequality of male and female and it be mandatory for every Indian to take up hour of daily GDF/GDR community service by abiding Sathya Sai 'Love all and serve all' for reforming Hindu society. Farmers sharing GDF share one common well and pump sets for kitchen gardens. They share planned general maintenance in specified order. Single child families provide an opportunity for children to have play mates and relieves much problem of parents by better and hygienic playground, reading rooms, educational facilities and guidance. Qualified members train to maintain accounts and statistics. Auditors check accounts and transactions of GDF.

Plan rural GDF with common amenity such as toilets, cow sheds, compost yards, modern kitchen, children's study centres, overhead tank with water supply pipes and kitchen gardens. GDF creates connecting roads and pathways to minimize commuting from homes. In rural areas farmers can share many essentials of a farming family such as cow shed, sheep and goat sheds and poultry sheds for all members as herds reduce cost of maintaining independent hay stacks, fodder, hospital care, milking, taking to meadows for fresh natural grass with exercise by head count sharing. They may have common cow dung pit for all cattle. Use cow milking equipment to milk cows in morning and evening; send milk collectively. Village plan as a township with many GDF. GDF creates close-knit community life. Farmers share general maintenance in specified order. In every generation GDF members reduce to ½.

Data bank sources of information are census of Aadhaar contain individual data. Street house numbering identify entire village homes. Population census covers total population. Collect population strength for every 'Group Dining Facility (GDF)' in village. Village house tax register gives house tax levied and ration cards provide list of nuclear families. Plan GDF with common amenity such as toilets, cow sheds, poultry sheds, sheep and goat sheds, fish farms, compost yards, modern kitchen, children's study centre, overhead tank with water supply pipes and kitchen gardens. Village plan as a many GDF. GDF in future identify as village groups. Common activities are taking cattle to grass field. If cattle are trained to live as a herd, a man can manage fifty cattle. In rural areas farmers can share many essentials of a farming family such as cow shed for all GDF member cattle as herd which reduces cost of maintaining independent hay stacks, fodder, hospital care, milking, taking to meadows for fresh natural grass with exercise. Use cow milking equipment to milk cows in morning and evening; send milk collectively. Share yield by head count of cattle sheep, fowl etc. In 80 years 8 GDF will reduce to one GDF.

HOW TO REDUCE MISERY OF HINDUS AND MUSLIM POPULATIONS!

Private Schools hiked school fees and higher education fees unaffordable to Indian family. Every child attends schooling from 3 years of age. Like Swedish children Indian children are not self-sustained at 16 years of age. In year 2012, 40 million qualified people contested for 6 million jobs. According to 2017 estimate death 8, birth 20 and needed 12 new jobs per 1000 population per year is the greatest concern for India. In the coming years the excess birth over death is going to worsen the situation. Present higher childbirth demand creation of 12 million new jobs for 1000 million population every year. But 2015-16 survey showed that only 0.15 million jobs created in India is only one percent of needed jobs. Major problem faced by Indian is unemployment.

The dependency of youngster on family discourages morale of youngsters. Ultimately peoples will suffer in misery to enjoy one's own livelihood. One more point to note Afro-Asian Muslims population in 69 countries encircling Indian Hindus is exploding. This is expected to result a 6000 million people misery in Indo-Pakistan region. If evil politicians start nuclear weapons war; then even grass will not grow for centuries in Bharatha Desam. Atomic weapons burned heat will increase 'Global Warming (GW)' and damage human habitat ecology. The author contemplated a few reasons for this situation. They are capitalist funded electioneering democracy; religious people exploding populations; improper education and underutilization of existing educational infrastructure. In order to avoid these situations few measures contemplated and presented below. Tribal society boys and girls self-sustain at 14 years of age. Indian follow child sex parties and teenage jobs of Swedish upbringing techniques that self-sustains boys and girls at 16-years. Adults adopt Swedish dating culture to increase first childbirth age of mothers to Swedish 35-years of age and abide Mao maximum SCL; mothers 4-hours job and others 6-hours jobs per day and rural folk work 6-days a week. European women bear first child even at 50 years of age since women life expectancy is 80 years of age. Training, educating and motivating women to postpone delivery of first child to later periods of motherhood and encouraging men to become father in their later period of fatherhood is essential.

TEI schools bisect yearly courses as two half yearly semester courses. Semester course period reduces to 25 weeks with one additional week of semester break. Admission period reduces to half-yearly. One batch admission in every semester enable to conduct 'Simultaneous Odd and Even Semester Classes (SO&ESC)'. TEI main high school campus holds primary school up to 8TH classes, 9th class, 10th class and plus one. Additional primary schools locate around periphery of high school so as to reduce traveling time. TEI incorporates EHL medium from 6th classes in school education. TEI runs four shifts of 3 periods in a day. Period 45 minutes and 5 minutes break between periods. DINK SP male and female complement each other in handling primary school classes and managing student 'Group Dining Residency (GDR)' and children's club. They are trained to conduct hobby classes and organize national mandatory collective lunch; create recreation to children and provide required feeding. The pair collectively plans syllabus and curriculum. Primary school teacher gathers and

transports children by group walking or running to primary school up to 8th classes. Government provide national mandatory lunch, hobby classes and rest hours. Teachers train pupils to follow fellow senior child to go to primary school. Four and two wheelers traffic restrict in children home school locality. Pupils attend High school by cycling. This create safer street traffic.

Curriculum aims at increasing physical skills and encourages analytical reasoning skills over memorization of information. TEI breaks sex barriers of SCL children by training opposite sexes hug all others in class room as nation building 'one for all and all for one' Swedish ritual. TEI groups existing subject as theory, 'Theory Action (TA)' and action. In primary schools and high schools, in first shift odd semesters are taught theory subjects in 3 periods in respective lecture class rooms. Even semesters are given Action Theory and action subjects training for 2 periods and one period allocate for mandatory national school lunch in mess hall. In second shift odd semesters attend Action Theory and action subjects training for 2 periods and one period allocate for mandatory national school lunch in mess hall and even semesters are taught theory subjects in 3 periods in respective lecture class rooms. Third and fourth shifts in primary schools are 'National Socialist Training (NST)'. In High Schools third and fourth shifts are higher level courses or optional training classes like sports, arts, music, dance etc. So, the students are allowed to choose the course as per their interest. This will help them to acquire expertise over their chosen fields like sports, games, dance, music or any skill they contemplated. In school curriculum, memorization of information and daily listening time reduces. 20 percentile higher academic achievers amongst boys and 20 percentile higher academic achievers amongst girls in 10th class pursue plus one.

Starting from 9th class onwards admission in any class is for 50% boys and 50% girls. Every classroom engages girls selected 'Learning Pairs (LP)' in odd semester and boys selected LP in even semester. School peoples form new LP in every new semester. Schools schedule 12 periods of classes a day for five days a week. Minimum attendance during 5-days of a week in High schools are 15 period theories, 10 period action classes and 5 period lunch breaks. Performance in each course evaluates individually but grades as pass, complete or incomplete for respective LP. Incomplete courses cannot be repeated. LP of 9th & 10th classes of TEI in addition to education perform 14 hours per week of work including townships two half days in a week of sanitary and maintenance work. State offer work training from 9th class onwards to enhance employability skills. Parents arrange sex party for school kids so that they self-sustain at 16-years of age. Girls take oaths to avoid pregnancy till 34 years of age. Boys takes oath to pay 16 years child care support, half of his wealth and half of his saving to 35-years age motherhood mother. Higher education students live in GDR with non-populating sex freedom, fraternity and liberty to create homogeneous society. LP motivates to become self-supporting, creative and productive pairs. TEI builds pupil cum worker and builds dignity of labour. TEI incorporates programs for building loyalty to LP partners. From existing Indian school educational streams, through method and time study techniques of Industrial Engineering formulate second TEI school stream. DINK SP as teaching or non-teaching staffs recruits by halving academic work load to function as politician in nationalized education

institution converted as TEI. In the newly created second school stream, after completing 10th classes or Plus one; student cannot remain unemployed! Jobless take up 0.35 PCI labour camp jobs in 'Kibbutz Forest Resorts (KFR)' or military 'Labor Market Training (LMT)' national jobs.

To start with 'Government Educational Institutions (GEI)' and other needed aided institutions nationalize and reform into feminist TEI schools, TU and ITAS. TU and ITAS bachelor degree student listening time only 150 minutes per day but schedules 750 minutes of daily classes. It enrolls half-yearly admission of two batches. University schedules up to 4 choices in course selection. It minimizes mathematics and reduces memorization of information for conducting examinations. TEI like Swedish 'Labour Market Training (LMT)' will not rank or grade trainees and students!

Those capable of teaching any subject in all four levels upgrades as Assistant professors and 'Course Directors (CD)'. India remained capitalist from time immemorial. SCL students admit to TU and ITAS by 'Differential Amenities and Fees Structure (DAFS)' method for five economic status groups. Admission offers through quota system-based lot system without any reference to marks or caste or religious identity to 5 economic classes say 1,2,3,4 & 5 with the quota of 20%, 10%, 20%, 10%, & 40% with respective fees of 5-times, 4-times, 3-times, 2-times, 1-time basic fees. Poor parents if desire lower fees structure of class 4 and 5 for their wards would have followed SCL and class 4 and class 5 students take up 0.35 PCI jobs and part time jobs since higher education is luxury.

Student GDR use existing hostel rooms or builds new residential huts with eco-friendly biodegradable material to provide suitable accommodation for local climate for 30 years transition period since they will not be required further due to reduction of childbirth. Student GDR unite students as one family; eradicates caste, religious and linguistic barriers; inculcates working skills; simplicity in living and skills for the poor to become rich. Student GDR has spy monitoring for enforcing discipline and guide students. Student pairs engages in various activities and trains to take up available sanitation, township maintenance, cooking, poultry keeping, reforestation and vegetable cultivation jobs. DINK SP acts as state parent and manages student GDR and builds new kind of individual who is work-conscious; crosses caste, religious and linguistic barriers. Teachers motivate students to take up traditional repeated physical workout practice. AAL&M nations train LP on 0.35 PCI jobs to live simple life with proven 'Catholic Birth Reduction Culture (CBRC)' of Eastern European. Males take two weeks Monk or Priest training in Monastery or seminary and girls as Apsaras learn Kama Sutra to date with love and sex without getting pregnancy.

The following reforms transform 'Engineering College (EC)' with one batch admission as second stream higher education TU and ITAS: 1. EC trebles its faculty members by recruiting politician DINK SP to teach two theory subjects or one odd and one even semester lab as permanent vocation through internal education and training by existing staff. They function as politician as well as college staff. In first reformation half yearly semester is 25 weeks teaching and 1-week semester holidays. Day's teaching changes to 10 periods of 75 minutes with 3rd period and 8TH period as lunch breaks. Theory or practical subjects 2 periods of 75 minutes in a

week. Lab instructor empowers to conduct laboratories and workshops independently from printed records. Ten percent of students offer student assistantship jobs. TU and ITAS admit five economic classes based on 'Differential Amenities and Fee Structure (DAFS)' and quota system. Student lives in campus 'Group Dining Residency (GDR)'. Class 4 and 5 students take up one day of 0,35 PCI jobs per week and lead simpler life. External final examinations are replaced by 'Internal Periodical Examinations and Evaluation (IPE&E)' for every quarter of semester syllabus. TU and ITAS provide basic apprentice training by offering 0.35 PCI jobs in industries or farms or in government.

'INSTITUTION OF TECHNOLOGY ARTS & SCIENCES (ITAS)'

Third stream of college education in TEI build by trebling faculty member strength by recruiting DINK SP with half work load whom through internal education and training becomes faculty members. Assistant professors and professors elect Provost. Provost builds 'Institutions of Technology Arts and Sciences (ITAS)' by combining similar departments of three 'Polytechnics (PT)' and one 'Engineering College (EC)'. ITAS by amalgamating similar departments creates larger departments. ITAS enrolls two batches every half year to award certificate, diplomas, under-graduate and graduate degrees by reforming existing 'One Batch Admission' system. ITAS frees from conventional university organizations such as affiliating University, AICTE, DTE, Ministry of Labour, Boards of Studies, Academic Councils and Syndicate. State owns English medium TU and 'Institute of Technology Arts and Sciences (ITAS)'. After pass in 10th class 80% of boys and 80% of girls the lower academic achievers pursue Certificate Courses of ITAS with 50% work training and 50% theory schedule as four half yearly semesters enrol 'Four Batches Admission (FBA)'. Polytechnic Certificate completed students takes up jobs as workers. Two years of worker experience is admission qualification to diploma courses in 'Polytechnic (PT)' and capacity is 3/10 of Certificate passes. Workers passing first two semester courses of polytechnics, as part time education, grants opportunity by lots to continue diploma courses as resident students. 30 % of Polytechnic Certificate course completed workers admits to diploma courses. PT Diploma holders working as supervisors by part time education passed first two semesters of B.E course with two years supervisory experience admit for degree courses by lots. Admission capacity is 1/3 of diploma pass. ITAS incorporates pyramidal regulation in admissions.

ITAS develops educational technology as follows: for example, if 100 existing colleges offer degree in Mechanical Engineering requiring 70 courses then 100 mechanical engineering departments of existing colleges for each one of the courses form mandatory committee. Committee members / subject is equal to $((100 \text{ (Mech. Egg. Depts)} \times 15 \text{ (Dept. staff strength)}) / 70 \text{ (courses)})$ equals 21 faculty members. It is mandatory for the 21 staff members to select, experts to share work, set of reference books and data books as 'Course Knowledge Banks (CKB)' and write 'Desk Top Published (DTP)' course material. They store them in the web sites. Rights to copy or copy and improve CKB and DTP course material stored in library website approves by government as academic freedom. Memorization of information reduces by incorporating reference data books for examinations. Teaching class period increases from 50

minutes to 75 minutes and class schedule change to 10 periods of 75 minutes in a day with third and eighth period as lunch breaks. Break between periods is 10 minutes. Semesters are 25 weeks teaching and 1-week holidays for students and staff. Faculty members incorporate IPE&E for every quarter of semester syllabus for 25 marks and external examinations cancel. Weekly classes are 2 periods of 75 minutes for theory subjects as well as lab subjects. Student pairs take up physical training to build up endurance capacity of a technician. They learn core of technology and ethics to build civilized society. In action classes, student pairs are evaluated from work output. 'Lab instructors post upgrades by empowering to conduct independently lab or workshop classes with student assistants. 'English Language Proficiency Test (ELPT)' conducts for fore-noon and after-noon 'Two Batches Admission (TBA)' students. 50 percentile lower scores in ELPT attend one semester ELTC.

BACHELOR DEGREE 40 COURSES WITH CHOICE BASED CREDIT!

In case of engineering Bachelor's degree course, the six theory and three lab subjects of 1st and 2nd semesters teach in diploma course level and undergraduate degree course level. The course choice increases to 2 X 9 subjects X 2 level choices = 36 courses. The 3rd to 7th semesters' 6 theory subjects and 3 lab subjects of each semester integrates as six full subjects with proper combination of theory, software, labs, mathematics and practical. Then it begins four level courses. Course choices in 5 semesters X 6 subjects / semester X 4 level / subject equals to 120 courses. Five courses of 8th semester offer in two levels such as diploma and degree. Course choices increases to 5 subjects X 2 level / subject equals to 10 choices. After the preparation of all 167 courses; semesters change to two semesters of 20 weeks, one semester of six weeks and one semester of three weeks with three one-week semester breaks after bigger semesters. Academic day schedule 10 period of 75 minutes with 10 minutes break between periods. 50 periods schedules in five academic days of a week to offer choice-based education.

Undergraduate student pair selects up to 5 subjects in 20 weeks semesters in any one of two or four levels. In 6 weeks, semesters select up to 2 subjects by student. In 3-weeks semesters 1 subject select by student. They attend maximum of 10 periods of 75 minutes classes per week. Practical courses conducted at flexible time since practical classes open for 24 hours of a day, 7 days a week. Bachelor degree requirement of four-year course graduation eligibility in ITAS engineering is 40 courses. Project guides by internal or external faculty members as theory report or prototype making with report. FBA achieves by half yearly admission of two batches. It further reduces fee structure. Education frames in such a way that four years bachelor's educational cost reduces to 1.5 times 'Per Capita Income (PCI)' of the country or lower and teacher student ratios increases to 1:14.

'TECHNICAL UNIVERSITY (TU)'

First stream school student 20% admits to plus one. Plus-one completed second stream school admit to higher education - the 'Technical University (TU)'. Plus two one year period added professional college is TU. Existing diploma and bachelor degree courses add one more year. TU quadruples admission capacity by enrolling in fore-noon and in after-noon 'Two

Batches Admission (TBA)'. It conducts 'English Language Proficiency Test (ELPT)' for newly admitted students. Lower 50 percentile scored student attends 'English Language Terminology Course (ELTC)' for one semester and course period elongates by one semester.

CHOICE BASED CREDIT 40 COURSES BACHELOR DEGREE!

Out of 10 semesters of bachelor degree technology courses, the first two semesters framed from plus two syllabus of school and 1st and 2nd semesters of UAEI. The 8th semester of UAEI becomes 10th semester in TU. Semester courses 1 to 4 and 10th are in technology 250 levels and the bachelor degree 350 levels. Faculty members combine theory, practical and software for 3rd to 7th semester courses of UAEI. They prepare, Certificate course in 100 level; diploma courses in 250 levels, bachelor degree course in 350 levels and master course in 500 levels. Faculty members capable of delivering subject courses in all four levels upgrade as assistant professors and 'Course Directors (CD)'. Undergraduate faculty member trainees get their master's degree by specializing in two or four levels teaching. Placement Centre (PC)' of TU builds MOU with employers to supply 0.35 PCI student apprentice labour. PC during first two years provides to LP in traditional technology jobs, current jobs and modern technology jobs calls 'Triple Technology Training (TTT)'.

Fully developed TU admits Four Batches with choices-based education in 3 years diploma in technology, 5 years bachelor degree courses in technology, 4 years arts and science bachelor degree and 2 years master degree in technology and in arts and sciences in the ratios of 6 is to 2 is to 1 is to 0.50 is to 0.25. Student assistant provides to every course director and two batches admit for every half year. 'Natural Selection of Talents (NSOT)' through choice-based education brings out innate talents of students. TU creates affordable, easier, interesting education and training. TU teaches two and four level choices-based courses with four semesters per annum. Student pairs grant freedom to choose subjects and levels of courses in academic choice-based credit system education. Faculty members grant complete autonomy to build multiple level courses and evaluate students internally. TU is education and research-oriented institution. Government pays 50% subsidy to TU and it is partly financed by public charity and research grants. TU offers diplomas, bachelor degrees, master degrees and doctoral degrees. TU and ITAS create mass education in the following 16 areas of employment: 1. Engineering and Technology. 2. Agriculture & Horticulture. 3. Medicine and hygiene technology. 4. Veterinary. 5. Trading. 6. Fisheries. 7. Catering. 8. Transport. 9. Information Technology. 10. Imports and Export. 11. Tourism. 12. Law. 13. Economics & Accounting. 14. Engineering Economics & Management. 15. Languages and Journalism. 16. Other professions.

ENGINEERING EDUCATION COST REDUCTION! ONE BATCH ADMISSION

ENGINEERING COLLEGES:

Indian 'Engineering Colleges (EC)' did not inculcate work culture or simplicity or patriotism or homogenization. EC selected one batch of students for 8 half yearly semesters of four years engineering undergraduate degree courses. First half of academic year scheduled

teaching of 4-odd semesters and in second half of academic year scheduled teaching of 4-even semesters. Any lecture repeated once in a year. Theory and practical taught during 14 out of 26 semester weeks and one week wasted on religious and political closed holidays. Effective teaching only 13 weeks in a semester of 26 weeks. Indian engineering bachelor's degree student shall pass 63 mandatory subjects in same level to get undergraduate engineering degree. Final examination syllabus load 100% and final examination marks 80%. 'Campus Interview Jobs (CIJ)' placed not even 1% of graduated students. Politicians created corrupt institutions that collected higher fees and bribed educational institutional regulators. Nations with lots of poor people ruled by adult franchise capitalist funded electioneering democracy failed to enforce four batches admission in government educational institutions since politician and capitalist owned private educational institutions.

Technology courses of Bradley University of USA, final examination syllabus load the ending 25% of syllabus and final examination marks 25%. So, students studied regularly and played regularly. American institutions enrolled two batches in a year by half yearly admission in fall and spring semesters. It reduced overhead cost by half. In a semester of 20 weeks, effective teaching 18 weeks. Students selected 40 choice-based theory, software, mathematics and action integrated applied courses with any level of student's choice in any subject varying from 100 to 600 level in USA. America produced world-class engineers just with 40 choice-based courses while 63 mandatory tough courses studied Indian required apprentice training.

PROPOSED REFORMATION:

Reformation 1: Military enforces to entire nation Mao maximum SCL; Swedish 35 year's motherhood; mother 4 hours job and others 6 hours job. Existing 'Engineering College (EC)' reform as feminist 'Technology Educational Institution (TEI)' by trebling staff strength by employing pairs complements each other with bachelor or master degree holder or other existing qualification of supporting staff of educational institutions as 'Double Income No Kids (DINK)' 'Socialist Patriot (SP)' whom by giving a letter of surrender of parental inheritance to military as surety for employment and promise to lead Gandhiji life of simplicity in staff 'Group Dining Residency (GDR)' of EC. Gandhiji dedicated his services as teacher and SP. 1. DINK SP who learns to teach one odd and one even semester theory or 'Action Theory (AT)' subject of that institution is lecturer in those subjects. DINK SP pair members complement each other in managing student residencies and running 'Placement Centre (PC)'. In addition to regular subjects, 'National Socialist Training (NST)' and ethics are taught to students. DINK SP educate and train by respective cadres of existing faculty members, instructors and supporting staff of institution. DINK SP bachelor degree laboratory or workshop technician of that institution elevates to guide and teach one odd and one even semester lab or workshop subjects. 2. TEI classify conventional semester subjects as theory, AT and Action (Laboratory and workshop) practical subjects. Auto CAD drawing, NC Machines, Applied-mechanics, Auto CAD Design, Flow, Lift, Drag, Simulation software and other computer aided courses consider as AT subjects. Period increases from 50 minutes to 75 minutes and weekly teaching of subjects restrict to 2

periods in a week in theory classes and two periods action in action classes even though action accessible 24 hours a day and 7 days a week. as standard practice. Teaching syllabus restrict to this size. Maximum of 5 theory subjects can be taught with two periods a week in USA since maximum theory listening restricts to 150 minutes per day for 5 days a week with 2 weekend holidays. As laboratory and workshop are taught in India; teaching restrict to maximum of 5 action and AT subjects as a group. This equalization or restriction enable to operate 'Simultaneous Odd and Even Semester Classes (SO&ESC)' so that all 8 semester students could attend simultaneously in theory classes and action classes. 3. Feminist TEI in 26-week semesters increases course teaching and evaluation to 25 weeks and 1-week common holiday for students and staff since it gives regular 2 days weekend holidays. In 25 weeks of teaching 22 weeks and evaluation composed of four quarter semester theory syllabus tests and action subjects two half semester tests conduct in 3 weeks of 'Internal Periodical Examinations and Evaluation (IPE&E)' by cancelling external affiliated university examinations.
